New Directions For Student Services No 112 Winter 2005:

Technology in Student Affairs: Supporting Student Learning and Services Kevin Kruger, 2005 The literature and research on the use of technology in student affairs is still very limited This volume of New Direction for Student Services was written to increase our understanding of the role of technology in the student learning experience of campus based and as well as distance learners Information technology has become a central tool in creating 24 7 self service experiences for students interacting with campus administrative functions Recent technologies also create the real possibility of moving beyond administrative functions to playing a central role in student learning community development and student development This volume monograph attempts to capture the current thinking around the use of technology in student affairs It is not a review of the actual technologies in use in student affairs The pace of change is so fast that such a treatment would make the writing out of date within two years In that light this volume focuses less on the technology and more on the ways in which the technology is altering the organization of student affairs the ways in which the lines between campus based students and distance learners are blurring and the increasing role technology is playing in student learning

The American Jewish Philanthropic Complex Lila Corwin Berman, 2022-08-30 The first comprehensive history of American Jewish philanthropy and its influence on democracy and capitalism For years American Jewish philanthropy has been celebrated as the proudest product of Jewish endeavors in the United States its virtues extending from the local to the global the Jewish to the non Jewish and modest donations to vast endowments Yet as Lila Corwin Berman illuminates in *The American Jewish Philanthropic Complex* the history of American Jewish philanthropy reveals the far more complicated reality of changing and uneasy relationships among philanthropy democracy and capitalism With a fresh eye and lucid prose and relying on previously untapped sources Berman shows that from its nineteenth century roots to its apex in the late twentieth century the American Jewish philanthropic complex tied Jewish institutions to the American state The government s regulatory efforts most importantly tax policies situated philanthropy at the core of its experiments to maintain the public good without trammeling on the private freedoms of individuals Jewish philanthropic institutions and leaders gained financial strength political influence and state protections within this framework However over time the vast inequalities in resource distribution that marked American state policy became inseparable from philanthropic practice By the turn of the millennium Jewish philanthropic institutions reflected the state s growing investment in capitalism against democratic interests But well before that Jewish philanthropy had already entered into a tight relationship with the governing forces of American life reinforcing and even transforming the nation s laws and policies *The American Jewish Philanthropic Complex* uncovers how capitalism and private interests came to command authority over the public good in Jewish life and beyond
