Nelida Fuccaro, 2016-03-09 This book explores violence in the public lives of modern Middle Eastern cities approaching violence as an individual and collective experience a historical event and an urban process Violence and the city coexist in a complicated dialogue and critical consideration of the city offers an important way to understand the transformative powers of violence its ability to redraw the boundaries of urban life to create and divide communities and to affect the ruling strategies of local elites governments and transnational political players The essays included in this volume reflect the diversity of Middle Eastern urbanism from the eighteenth to the late twentieth centuries from the capitals of Cairo Tunis and Baghdad to the provincial towns of Jeddah Nablus and Basra and the oil settlements of Dhahran and Abadan In reconstructing the violent pasts of cities new vistas on modern Middle Eastern history are opened offering alternative and complementary perspectives to the making and unmaking of empires nations and states Given the crucial importance of urban centers in shaping the Middle East in the modern era and the ongoing potential of public histories to foster dialogue and reconciliation this volume is both critical and timely Gulf Security in the Twenty-First Century David E.

Long, Christian Koch, 1998-08-27 The connection between regional instability and the preservation of global security is nowhere more sensitive than in the Gulf Events since the 1990 1991 Gulf War continue to confirm the fragile interaction among states in the region and their susceptibility to external forces Gulf Security in the Twenty First Century brings together some of the foremost area experts to explore the most pressing issues including military threats to the region obstacles to economic development and socioeconomic harmonization and challenges to political stability In particular the work examines Iran s often enigmatic foreign policy vis vis its Gulf neighbors Iraq s resurgent military threat choices and constraints confronting US Middle East policy and Europe s inability to identify and pursue a united policy to safeguard its economic interests in the area These topics are further illuminated with an analysis of Russia s historical attempt at balancing foreign policy objectives in the Gulf with its enduring interests in Central Asia The potentially explosive issues of religious radicalism and the challenges of democratic pluralism are discussed in an effort to ascertain the potential of political Islam to disturb or enhance regional security Similarly the problems inhibiting the settlement of territorial disputes in and around the Gulf are brought into focus to illustrate lingering historical tensions among neighboring states To round out the book s topical coverage several contributors shed light on the region s unfettered dependence on foreign labor growing demographic pressures associated social and economic transformations and challenges to responsive public policy

The Environment and World History Edmund Burke III, Kenneth Pomeranz, 2009-04-08 Since around 1500 C E humans have shaped the global environment in ways that were previously unimaginable Bringing together leading

environmental historians and world historians this book offers an overview of global environmental history throughout this remarkable 500 year period In eleven essays the contributors examine the connections between environmental change and other major topics of early modern and modern world history population growth commercialization imperialism industrialization the fossil fuel revolution and more Rather than attributing environmental change largely to European science technology and capitalism the essays illuminate a series of culturally distinctive yet often parallel developments arising in many parts of the world leading to intensified exploitation of land and water The wide range of regional studies including some in Russia China the Middle East India Southeast Asia Latin America Southern Africa and Western Europe together with the book s broader thematic essays makes The Environment and World History ideal for courses that seek to incorporate the environment and environmental change more fully into a truly integrative understanding of world history
