Principles Of Integral Science Of Religion:

Principles of Integral Science of Religion Georg Schmid, 1979-01-01 *Principles of Integral Science of Religion* Georg Schmid, 2011-12-01 Since its founding by Jacques Waardenburg in 1971 *Religion and Reason* has been a leading forum for contributions on theories, theoretical issues and agendas related to the phenomenon and the study of religion. Topics include among others category formation, comparison, ethnophilosophy, hermeneutics, methodology, myth, phenomenology, philosophy of science, scientific atheism, structuralism and theories of religion. From time to time the series publishes volumes that map the state of the art and the history of the discipline.

The Humanities Frank Whaling, 2019-10-08 No detailed description available for *The Humanities*.

NVMEN, the Academic Study of Religion, and the IAHR Tim Jensen, Armin Geertz, 2015-11-24 *Nvmen* publishes papers representing the most recent scholarship in all areas of the history of religions ranging from antiquity to contemporary history. It covers a diversity of geographical regions and religions of the past as well as of the present. The approach of the journal to the study of religion is strictly non-confessional. While the emphasis lies on empirical source-based research, typical contributions also address issues that have a wider historical or comparative significance for the advancement of the discipline. *Numen* also publishes papers that discuss important theoretical innovations in the study of religion and reflective studies on the history of the discipline. Brill is proud to present this special volume of articles compiled to celebrate the occasion of the 60th anniversary of *NVMEN International Review for the History of Religions* in 2014. The articles in this volume have been selected under the auspices of the International Association for the History of Religions (IAHR) and reflect critically on the past, present and future of *NVMEN*, the IAHR and the study of the History of Religions.

Theory and Method in Religious Studies Frank Whaling, 2012-10-25 This paperback edition contains selected articles from the original clothbound editions of *Contemporary Approaches to The Study of Religion* Vol I *The Humanities* Vol II *The Social Sciences* *Religion and Reason* 27-28.

Phenomenology of the Truth Proper to Religion Daniel Guerrière, 1990-01-01 The question is what constitutes truth in religion. Represented here is the whole spectrum of phenomenology, transcendental, existential, hermeneutic, ethical and deconstructive, presented by some of the most respected names in the philosophy of religion today: Louis Dupré, Merold Westphal and Edward Farley. Here is also engagement with a wide variety of twentieth-century thinkers such as Husserl, Scheler and Heidegger, Ricoeur, Gadamer and Derrida, Freud, van der Leeuw and Eliade and Rosenzweig, Tillich and Schillebeeckx. This volume provides unique sources for anyone interested in the philosophical, theological or scientific study of religion.

Faith and Science in Russian Religious Thought Teresa Obolovitch, 2019-05-09 *Faith and Science in Russian Religious Thought* provides a comprehensive analysis of the relationship between science and faith in Russian religious thought.
