Infrastructure Delivery Ashoka Mody, 1996-01-01 IFC Lessons of Experience Paper No 3 Describes the International Finance Corporation's IFC's 20 years of leasing experience in developing countries and assesses the developmental impact of leasing The IFC has invested in leasing companies in more than half of the developing countries that have a leasing industry today Public-Private Partnerships in Global Development Timothy E. Nielander, 2020-11-27 The global development community has articulated many collective aspirations in the Sustainable Development Goals SDGs aimed at transforming the world Given the complicated issues that accompany globalization State and non State actors continue to explore the utility of public private cooperation mechanisms Public private cooperation initiatives strive for global governance mechanisms involving oversight by all of the actors and operating frameworks that include multiple states intergovernmental organizations NGOs private sector companies and prominent individuals **Revisiting Public-Private Partnerships** Tharun Dolla, Boeing Laishram, Ganesh Devkar, 2023-11-27 This edited volume discusses the resilience of public private partnerships PPPs in the wake of the COVID 19 pandemic Using a comparative lens the book assesses the degree to which global PPP infrastructure projects have been affected by the pandemic and details short term and long term measures undertaken by governments and private parties to mitigate disruption to infrastructure delivery Secondly it focuses on improving the state of art knowledge by suggesting future directions to be taken by governments practitioners and researchers in order to create resilience in infrastructure projects when using PPPs as the delivery model Chapters present diverse case studies of PPP governance across countries covering topics such as regulatory issues risk management financing contractual governance arbitration and stakeholder management Providing a systematic review assessment and research agenda on lessons learned from the pandemic this volume will appeal to researchers and students of public administration public economics construction management infrastructure management and public management as well as practitioners and government professionals Organization Management in Construction Paul S. Chinowsky, Anthony D. Songer, 2011-01-12 Today's construction environment is changing at an unprecedented pace and executives are facing a diverse set of issues globalization economics workforce demographics and technology Moreover the traditional issues of competition and delivery are being challenged by new laws and new industry entrants and the tasks of project and organization management are being overhauled This all demands greater leadership from senior management Construction executives typically reach senior level after many years mastering the art of project management which has given them very little time or opportunity to learn the concepts and principles of organization leadership unlike their counterparts in other industries who have been steeped in this This book provides a comprehensive overview of the key issues that organization leaders must understand and address It provides concise summaries by leading international authorities of the ten key strategic management issues shows how they have emerged and outlines their potential impact on the construction

organization *Public Private Partnerships in Transport* Athena Roumboutsos, 2015-07-28 Over the last thirty years Public Private Partnerships PPPs have been used to deliver transport capital projects and services PPPs are complex arrangements that require a multi disciplinary approach in order to assure their success though research on the subject has been fragmented This book fills the gap in existing literature by providing insight into these complex arrangements at their various stages of development Public Private Partnerships in Transport trends and theory is structured to follow the life cycle of a PPP project and strikes a balance between theory and practice Divided into four parts each section highlights major concerns and offers an array of views and policy recommendations Parts include context for national implementation decision models performance measures and efficiency standards This book includes an expanded discussion on the findings presented discussed and analysed at the closing event of the COST Action TU1001 network on the topic of PPPs in transport The result will be of significant interest to the academic community policy makers and practitioners *Exploring Public-Private Partnerships in Singapore* Soojin Kim, Kai Xiang Kwa, 2019-11-26 This book looks at what drives effective management of public private partnerships PPPs It examines widely cited Singaporean cases pertaining to successful PPPs as well as those in failure and subsequently contracted back in the public sector provision in diverse areas of public service such as water services educational services trade and logistical data services residential services acquisition and maintenance of military systems research and development services infrastructure and sport services The book begins each case with an overview e g project goals motivators types of PPPs stakeholders time period assigned budget and capital planning and then specifically discusses critical success factors and or risk factors pertaining to the decisions to proceed with ongoing PPPs or to return to self operation in house public production of services later respectively The book concludes with a discussion of lessons learned from Singaporean cases and contexts of PPPs and suggests more feasible strategies and conditions toward successful collaborative governance between public agencies and private counterparts for the new century This book will appeal especially to public policymakers **Public Private Partnerships** Robert M. Clark, Simon Hakim, 2019-10-18 This book discusses Public Private Partnerships PPPs and their potential to protect and maintain critical infrastructure in a variety of global governmental settings Critical infrastructure is defined as essential services that underpin and support the backbone of a nation s economy security and health These services include the power used by homes and businesses drinking water transportation stores and shops and communications As governmental budgets dwindle the maintenance of critical infrastructure and the delivery of its related services are often strained PPPs have the potential to fill the void between government accounting and capital budgeting This volume provides a survey of PPPs in critical infrastructure combining theory and case studies to provide a comprehensive view of possible applications Written by a diverse group of international experts the chapters detail PPPs across industries such as transportation social infrastructure healthcare emergency services and water across municipalities from the US to New Zealand to Hong Kong Chapters discuss objectives and legal

requirements associated with PPPs the potential advantages and limitations of PPPs and provide guidance as to how to structure a successful PPP for infrastructure investment This book is of interest to researchers studying public administration public finance and infrastructure as well as practitioners and decision makers interested in instituting PPPs in their communities
