Professional Development Skills for Obstetricians and Gynaecologists
 Tahir Mahmood,Tahir Ahmed Mahmood,Sambit Mukhopadhyay,2018-09-27 Professional development skills encompass non clinical attributes that contribute towards career development research and high quality clinical practice essential for junior

doctors and newly appointed consultants in today's health service. A didactic review of professional development skills illustrated by cases from obstetrics and gynaecology. Introduction to Research Methodology for Specialist Trainees P. M. Shaughn O'Brien, Fiona Broughton-Pipkin, 2007. This book is written for trainees in all subjects related to health. Research orientated questions are incorporated into the majority of Royal College membership examinations for example in the OSCE station a research study or paper has to be criticised. Because of the nature of the editors' posts and their contacts there is naturally an emphasis on the specialist registrar trainee in obstetrics and gynaecology and many of the writers and thus the examples in the text are obstetric and gynaecological however physicians, surgeons, midwives and nurses could readily use the book.
