Brown, Cori Crane, Beatrice C. Dupuy, Estela Ene, 2025-06-30 Second language program development and administration is a long standing area within the larger field of applied linguistics In many ways it is the quintessential applied linguistics field as it crosses disciplinary boundaries while balancing the rigors of scholarly inquiry with the demands of practical application without losing sight of concrete learner outcomes The Routledge Handbook of Language Program Development and Administration provides a scholarly rigorous yet practically relevant treatment of issues implicated in program development and administration with 52 chapters written by leading scholars in the field Authors not only address the theoretical underpinnings of their respective topics but also provide actionable evidence based recommendations concerning eminently practical matters In this way the volume provides both novice and experienced language program administrators with important guidance on how to think about the work that they do and how best to go about it while also validating language program administration as a scholarly area of inquiry The Routledge Handbook of Language Program Development and Administration is essential reading for practicing second language program administrators at the post secondary level in service and pre service second language instructors graduate students in applied linguistics and even

Quality Assurance and Accreditation in Foreign Language Education Donald F. Staub, 2019-08-01 Greater student mobility increasing demand for access to tertiary education as well as policy changes have spurred rapid expansion of the global higher education sector However with increased demand comes considerable variation in the quality of the supply As higher education is an expensive endeavor for all stakeholders governments funders employers and families there are also increasing expectations for accountability and demonstrations of quality English as a foreign language EFL programs in particular are under considerable pressure to substantiate their value resulting in a significant rise in interest around their quality This volume is the outcome of a May 2018 international conference on quality and specialized accreditation held in Turkey The book's three sections take the reader from the global to the program level examining trends and best practices in quality assurance and accreditation in EFL programs The book's geographic focus is primarily the Middle East and Turkey yet the issues discussed herein are quite global in nature This volume will be of interest to educational administrators at the institutional or program level educational leadership programs focusing on higher education language teacher preparation programs and administrators in centralized education systems or accrediting organizations
