**Principles of International Environmental Law** Philippe Sands, 2003-10-09 This second edition of Philippe Sands' leading textbook on international environmental law provides a clear and authoritative introduction to the subject revised to December 2002. It considers relevant new topics including the Kyoto Protocol, genetically modified organisms, oil pollution, chemicals, etc. and will remain the most comprehensive account of the principles and rules relating to environmental protection and the conservation of natural resources. In addition to the key material from the 1992 Rio Declaration and subsequent developments, Sands also covers topics including the legal and institutional framework, the field's historic development and standards for general application. This will continue to be an invaluable resource for both students and practitioners alike.

**Principles of International Environmental Law I** Philippe Sands, 1994 *Principles of International Environmental Law I* Philippe Sands, 1995 This post UNCED account of the frameworks, standards and implementation of the international environmental law is intended for undergraduates and academics in the fields of international law, politics, geography, economics and environmental studies. It can be used on its own as a reference or course text or in conjunction with its companion collections of documents.
