Prisoners Work And Vocational Training:

Prisoners' Work and Vocational Training Frances H. Simon, 2005-09-01 Most prisoners in the UK are required to work Yet prison work is a relatively neglected subject in the existing literature on imprisonment and few studies have focused on the nature of prison work prisoners experience of it and the extent to which it meets the need of rehabilitating prisoners *Prisoners Work and Vocational Training* sheds new light on this crucial area in the work of prisons and examines the nature of training received by prisoners the actual work they undertake how this relates to the world or work outside the role it plays in helping to secure employment on release Frances Simon employs a balance of qualitative and quantitative data including first hand accounts from UK prisons gathered during field research Her book will be essential reading for all those studying criminology and prison studies and all professionals working with prisoners including probation officers and social workers

Prisoners' Work and Vocational Training Frances H. Simon, 2005-09 Employing a balance of qualitative and quantitative data including first hand accounts from UK prisons gathered during field research to make *Prisoners Work and Vocational Training* is an invaluable book in the study of work in prisons

Prisons, Education, and Work John Braithwaite, 1980

The Prison Gordon Hawkins, 1976 Despite lethal explosions of violence from within and critical assaults from without it seems certain that prisons will continue to exist for the foreseeable future Gordon Hawkins argues that certain key issues which attend the use of imprisonment as a penal method must be dealt with realistically Beginning with a discussion of the ideology of imprisonment and the principal lines of criticism directed at it Hawkins examines such issues as the prisonization hypothesis the theory that prisons serve as a training ground for criminals the role of the prison guard work in prisons and the use of prisoners as research subjects for medical experiments He also deals with the prisoners rights movement and its implications for the future of prison administration Hawkins not only makes specific recommendations for reform he also carefully appraises the barriers which obstruct their implementation Hawkins devotes a large portion of this relatively short book to a discussion of some of the really crucial policy activities that tend to stifle meaningful reform and then goes on to tell how at least some of these policies can be altered The book concludes with a chapter devoted to a discussion of impediments to change that should be required reading for all serious students of penology

Choice Hawkins has added a much needed down to earth analysis of prison This is not a pessimistic book It is a realistic book It avoids the pitfall of utopian and single factor solutions to an extremely complex problem

Prison Labour: Salvation or Slavery? Dirk van Zyl Smit, Frieder Dünkel, 2018-12-20 First published in 1999 this collection of articles responds to the controversial debate on whether prison labour constitutes betterment or slave labour The volume is a stock taking exercise designed to elicit basic information as a foundation for reconsidering fixed assumptions about prison labour This controversial issue has had sometimes diametrically opposed claims about it over the years Contributors examine the issue within the context of a range

Releasing Prisoners, Redeeming Communities Anthony C. Thompson, 2008-04-01 In the middle of the first decade of the twenty first century African Americans made up approximately twelve percent of the United States population but close to forty percent of the United States prison population Now in the latter half of the decade the nation is in the midst of the largest multi year discharge of prisoners in its history In *Releasing Prisoners Redeeming Communities* Anthony C Thompson discusses what is likely to happen to these ex offenders and why For Thompson any discussion of ex offender reentry is de facto a question of race After laying out the statistics he identifies the ways in which media and politics have contributed to the problem especially through stereotyping and racial bias Well aware of the potential consequences if this country fails to act Thompson offers concrete realizable ideas of how our policies could and should change *Nordic Prison Education* Nordisk ministerråd, 2005 In 1999 the Nordic Council adopted a recommendation on prison education in a Nordic perspective In September 2001 a Nordic project group was appointed to carry out a study with representatives from the Prison and Probation Services and the educational authorities The project was directed by the County Governor of Hordaland Norway According to this report good cooperation between the Prison and Probation Services and other authorities is one of the key starting points for satisfying prisoners' educational needs The prison education offered today does not satisfactorily correspond to prisoners' educational needs It also only accounts for a small fraction of the cost of a place in prison Increased investments in prison education would probably be of added value for society as a whole The study also points out the importance of crime prevention both to prisons and to society in general Training Needs in Correctional Institutions Joseph Wallace Collins, 1966 USA Analysis of the special vocational training needs of prisoners to restore them as productive members of society and to reduce the rate of recidivism includes a profile of prisoners and sections on work activities and training in prisons employment opportunity obstacles for releases youth training centres for those convicted of juvenile delinquency training needs and government policy in respect thereof etc Bibliography pp 14 and 15 and some statistics
