Prisons 2000 An International Perspective On The Current State And Future Of Imprisonment:

Prisons 2000 Peter Francis, Roger Matthews, 1996-07-13 A collection of original articles from a number of the world's leading authorities on imprisonment. The aim of the book is to review the current state of imprisonment around the world and to look at possible future developments. The underlying theme of the book is that imprisonment is undergoing a significant change in a number of different countries and that there are important lessons which can be learned from the analysis of these changes. At the same time this book is perceived as a state of the art collection which provides an informed and comprehensive analysis of the major aspects of imprisonment. Consequently the book should be of interest to a wide ranging international audience of academic researchers and policy makers as well as students.

The American Prison Francis T. Cullen, Mary K. Stohr, 2014 For the first time in four decades prison populations are declining and politicians have reached the consensus that mass imprisonment is no longer sustainable. At this unique moment in the history of corrections the opportunity has emerged to discuss in meaningful ways how best to shape efforts to control crime and to intervene effectively with offenders. *The American Prison: Imagining a Different Future* by Francis T. Cullen, Cheryl Lero Johnson and Mary K. Stohr pulls together established correctional scholars to imagine what this prison future might entail. Each scholar uses his or her expertise to craft in an accessible way for students to read a blueprint for how to create a new penology along a particular theme. For example one contributor writes about how to use existing research expertise to create a prison that is therapeutic and another provides insight on how to create a feminist prison. In the final chapter the editors pull together the lessons learned in a cohesive comprehensive essay.

Discretion, Community, and Correctional Ethics John Kleinig, Margaret Leland Smith, 2001-08-28 Some two million Americans are in jail or in prison. Except for the occasional exposé what happens to them is hidden from the rest of us. Is it possible to develop and instill a professional ethic for prison personnel that in partnership with formal regulatory constraints will mediate relations among officers, staff and inmates or are the failures of imprisonment as an ethically constrained institution so deeply etched into its structure that no professional ethic is possible? The contributors to this volume struggle with this central question and its broader and narrower ramifications. Some argue that despite the problems facing the practice of incarceration as punishment a professional ethic for prison officers and staff can be constructed and implemented. Others however despair of imprisonment and even punishment and reach instead for alternative ways of healing the personal and communal breaches constituted by crime. The result is a provocative contribution to practical and professional ethics.

Women and Punishment Pat Carlen, 2013-05-13 In the last decade there has been growing international concern about the increasing numbers of women in prison, the effects that imprisonment has on their children, the realisation that gaolled women have different criminal profiles and rehabilitative needs to male prisoners and the seeming intractability of the associated problems. In response there has been an overarching policy concern in many countries to fashion and co-ordinate gender specific policies towards female offenders which aim both

to slow down the rate of their offending and or imprisonment and also to engender flexible programmes which will reduce the time spent in custody and or away from their young children The major objective of this book is to describe and analyse contemporary opportunities for and barriers to both the reduction of female prison populations and the reduction of the pain of those women who continue to be imprisoned It assesses the most important recent attempts to reduce both women s imprisonment and the damage it does identifying and analyzing cross jurisdiction and gender specific lessons to be learned and the unexpected consequences of some of the reform strategies This book brings together leading scholars and practitioners in the field providing a critique of the reform initiatives which have taken place and a much needed theorization of cross national policy in this area It will be essential reading for all with an interest in prisons and prison reform

Analysing Women's Imprisonment Pat Carlen, Anne Worrall, 2013-01-11 In both the UK and the rest of the world there have been rapid increases in the numbers of women in prison which has led to an acceleration of interest in women s crimes and the social control of women and women s experience of both prison and the criminal justice system is very different to men s This text is concerned to address the key issues relating to women s imprisonment contributing at the same time to an understanding of prison issues in general and the historical and contemporary politics of gender and penal justice What are women s prisons for What are they like Why are lone mothers ethnic minority and very poor women disproportionately represented in the women s prison population Should babies be sent to prison with their mothers These are amongst the issues with which this book is concerned *Analysing Women s Imprisonment* is written as an introductory text to the subject aiming to guide students of penology carefully through the main historical and contemporary discourses on women s imprisonment Each chapter has a clear summary concepts to know essay questions and recommendations for further reading and will help students prepare confidently for seminars course examinations and project work **Doing Prison Work**

Elaine M Crawley, 2013-01-11 This book provides a much needed sociological account of the social world of the English prison officer making an original contribution to our understanding of the inner life of prisons in general and the working lives of prison officers in particular As well as revealing how the job of the prison officer and of the prison itself is accomplished on a day to day basis the book explores not only what prison officers do but also how they feel about their work In focusing on how prison officers feel about their work this book makes a number of interesting revelations about the essentially domestic nature of much of the work they do about the degree of emotional labour invested in it and about the performance nature of many of the day to day interactions between officers and prisoners Finally the book follows the prison officer home after work showing how the prison can spill over into their home lives and family relationships Based on extensive ethnographic fieldwork in different types of prisons including interviews with prison officers wives and children as well as prison officers themselves this book will be essential reading for all those with an interest in how prisons and organisations more generally operate in practice **Understanding Prison Staff** Jamie Bennett, Ben Crewe, Azrini

Wahidin,2013-05-13 The past decade has seen dramatic growth in every area of the prison enterprise Yet our knowledge of the inner life of the prison remains limited This book aims to redress this research gap by providing insight into various aspects of the daily life of prison staff It provides a serious exploration of their work and in doing so will seek to draw attention to the variety value and complexity of work within prisons This book will provide practitioners students and the general reader with a comprehensive and accessible guide to the contemporary issues and concerns facing prison staff
