A. Hunter,2025-10-06 This work contains the earliest blog articles from the author written between the years of 2012 2019 Ranging from mere poetic reflections of the author s traditionalist perspectives on love romance and culture to political commentary and legal and historical scholarly essays on the issues of sex and gender roles the author takes a no holds barred attitude persistently ripping into everyone both feminists antifeminists and every ideology in between and taking a decidedly nasty and brutal bite out of the so called manosphere and the blatant hypocrisies inherent in modern day conservatism Never truly on the Right and never truly on the Left and probably pleasing absolutely nobody the reader can easily note the change as the years go by with the articles undergoing a plain transformation from being shorter and relying more heavily on inter peer and social connections to blossoming into mere solitary legal historical scholarly works that span the length of dozens of pages as both the maturity and education of the author deepens A subtle change in perspective and attitude of the author can also be noted where feminism though never proclaimed nor upheld as a social good is blamed less and less over time for all of modern society s ills School Library Journal ,2000 **Women, Business and the Law** The World Bank,2013-11-07 Women perform 66% of the world s work produce 50% of the food but earn 10% of the income and own 1% of the property To shed light on why this grim statistic still holds true Women Business and the Law aims to examine legal differentiations on the basis of gender in 143 of the world s economies Women Business and the Law tracks governments actions to expand economic opportunities for women across six key areas accessing institutions using property getting a job providing incentives to work building credit and going to court The report uncovers legal differentiations for women and married versus unmarried women such as being able to register a business open a bank account and work at night These issues are of fundamental importance When because of tradition social taboos or simple prejudice half of the world s population is prevented from making its contribution to the life of a nation the economy will suffer The empirical evidence does suggest that slowly but surely governments are making progress in expanding opportunities for women It is our hope that data presented in Women Business and the Law will both facilitate research on linkages between legal differentiation and outcomes for women and promote better informed policy choices on what governments can do to expand opportunities for women , Job Patterns for Minorities and Women in Private Industry ,1986
