Lucien Leuwen 2 The Telegraph:

Lucien Leuwen Stendhal, 1951 *The Return of Thematic Criticism* Werner Sollors, 1993 In the glory days of high modernist formalism it was anathema to speak about the content of a work of art Those days are gone and critical practice now is largely thematic practice A focus on the themes of literature informs feminist new historicist ethnic and even second generation deconstructionist approaches However such practice is not always recognized The specter of theoretically impoverished positivism still haunts thematic analysis making it the approach to literature that dare not speak its name This volume brings together for the first time an international group of writers critics and theoreticians who have thought deeply about this issue How can we determine the theme of a given text May the focus on form be the theme of a certain moment Can the motif be understood as a formal category What operations permit us to say that three or four texts constitute variants of the same theme The contributors challenge the conventional dismissal of merely thematic approaches and offer the reader different ways of tackling the issue of what a piece of writing is about The work here comes out of such diverse intellectual traditions as Russian film theory French phenomenology Foucault narratology the Frankfurt School intellectual history Geistesgeschichte psychoanalytic criticism linguistics ideological criticism Proppian folklore studies and computerized plot summary models In addition to a collection of aphorisms from Plato to Robert Coover and a group of general and theoretical essays this volume contains examples of practical engagement with such topics as literary history Shakespeare autumn poetry anti-Semitism fading colors bachelors Richard Wagner and the Mexican Revolution No comparable volume exists *The Strange Liberalism of Alexis de Tocqueville* Roger Boesche, 2019-05-15 The Strange Liberalism of Alexis de Tocqueville places Tocqueville's political thought in the context of his time and place and shows why his ideas defy easy classification Responding to the twentieth century tendency to impose anachronistic political categories on Tocqueville Roger Boesche reminds us that like Stendhal Balzac Hugo Lamartine Flaubert and other writers of his generation he was a nineteenth century Frenchman reacting to contemporary French concerns aspirations and anxieties

Crossed Wires Dan Schiller, 2023-02-17 In *Crossed Wires* Dan Schiller who has conducted archival research on US telecommunications for more than forty years recovers the extraordinary social history of the major network systems of the United States from the nineteenth to the twenty first centuries Drawing on arrays of archival documents and secondary sources Schiller reveals that this history has been shaped by sharp social and political conflict and is embedded in the larger history of an expansionary US political economy This authoritative and comprehensive revisionist history of telecommunications argues that business economic and regulatory concerns influenced the evolution of this industry far more than the technology

Real Time David F. Bell, 2010-10-01 In *Real Time* David F Bell explores the decisive impact the accelerated movement of people and information had on the fictions of four giants of French realism Balzac Stendhal Dumas and Zola Nineteenth century technological advances radically altered the infrastructure of France changing the ways ordinary citizens and literary characters viewed time space distance and speed The most influential of these advances included the improvement of the stagecoach the growth of road and canal networks leading to the advent of the railway and the

increasing use of mail and of the optical telegraph Citing examples from a wide range of novels and stories Bell demonstrates the numerous ways in which these trends of acceleration became not just literary devices and themes but also structuring principles of the novels themselves Beginning with both the provincial and the Parisian communications networks of Balzac Bell proceeds to discuss the roles of horses and optical telegraphs in Stendhal and the importance of domination of communication channels to the characters of Dumas whose Count of Monte Cristo might be seen as the ultimate fictional master of this accelerated culture Finally Bell analyzes the cinematic vision created by the arrival of the railroad as depicted by Zola in *La B te Humaine* **Books in General** Victor Sawdon Pritchett,1953 Collection of thirty four critical essays on classic and contemporary books most of which first appeared in *The New Statesman and Nation* *Books in Print Supplement* ,2002 **The Cumulative Book Index** ,1991 A world list of books in the English language Reference Guide to World Literature Tom Pendergast,2003 Covers writers from the ancient Greeks to 20th century authors Includes biographical bibliographical entries on nearly 500 writers and approximately 550 entries focusing on significant works of world literature Each author entry provides a detailed overview of the writer s life and works Work entries cover a particular piece of world literature in detail **Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971** New York Public Library.
