Chicana/o Struggles for Education Guadalupe San Miguel, 2013-04-29 Much of the history of Mexican American educational reform efforts has focused on campaigns to eliminate discrimination in public schools However as historian Guadalupe San Miguel demonstrates in *Chicana o Struggles for Education Activism in the Community* the story is much broader and more varied than that While activists certainly challenged discrimination they also worked for specific public school reforms and sought private schooling opportunities utilizing new patterns of contestation and advocacy In documenting and reviewing these additional strategies San Miguel s nuanced overview and analysis offers enhanced insight into the quest for equal educational opportunity to new generations of students San Miguel addresses questions such as what factors led to change in the 1960s and in later years who the individuals and organizations were that led the movements in this period and what motivated them to get involved and what strategies were pursued how they were chosen and how successful they were He argues that while Chicana o activists continued to challenge school segregation in the 1960s as earlier generations had they broadened their efforts to address new concerns such as school funding testing English only curricula the exclusion of undocumented immigrants and school closings They also advocated cultural pride and memory inclusion of the Mexican American community in school governance and opportunities to seek educational excellence in private religious nationalist and secular schools The profusion of strategies has not erased patterns of de facto segregation and unequal academic achievement San Miguel concludes but it has played a key role in expanding educational opportunities The actions he describes have expanded extended and diversified the historic struggle for Mexican American education

Genuine Multiculturalism Cecil Foster,2013-12-01 While many modern societies are noted for their diversity the resulting challenge is to determine how citizens from different backgrounds and cultures can see themselves and each other as equals and be treated equally In **Genuine Multiculturalism** Cecil Foster shows that a society s failure to bridge these differences is the tragedy of modern living and that pretending it is possible to mechanically develop fraternity and solidarity among diverse groups is akin to seeking out comedy Arguing that genuine multiculturalism is the search for social justice by individuals who have been trapped by ascribed identities or newcomers who have been shut out of perceived ethnic homelands Foster details how this process in essence is the story of the Americas Reconceptionalizing the terms of multiculturalism he offers an intervention into Canada s claim that its definition and practice are based on recognizing equality of citizenship Identifying genuine multiculturalism as an ongoing work in progress rather than a tightly defined policy position Foster challenges readers to imagine a greater and more harmonious ideal A necessary theoretical reconsideration of diversity within society

Multicultural Poetics Nissa Parmar,2017-12-21 Argues that multiculturalism and hybridity are key components of the nation s poetry and its culture Multicultural Poetics provides a new perspective on American poetry that will contribute to the evolution of contemporary critical practice Nissa Parmar combines formalist analysis with cultural studies theory to trace a lineage of hybrid poetry from the American Renaissance to what Marilyn Chin deemed America s multicultural renaissance the blossoming of multicultural literature in the 1980s and 1990s This re visionary literary history begins by analyzing Whitman and Dickinson as postcolonial poets This critical approach provides an alternative to the factionalism that has

characterized twentieth century American poetic history and continues to inform literary criticism in the twenty first century Parmar uses a multiethnic multigender method that emphasizes the relationship between American poetic form and cultural development This book provides a new approach by using hybridity as the critical paradigm for a study that groups multiethnic and emergent authors It thereby combats literary ghettoization while revealing commonalities across American literatures and the cross fertilization that has informed their development Parmar demonstrates her mastery of the immense body of scholarship devoted to the poetic lineage Multicultural Poetics engages She writes with elegance and tact and displays her ability to simplify several concepts liminality the third space interstitiality of the most confounding of contemporary theorists Donald E Pease author of The New American Exceptionalism Ebook: [Evolving Dialogues in Multiculturalism and Multicultural Education](#) Richard Race,2024-03-20 Richard Race has long proven that multicultural education and multiculturalism in British education are key to understanding and fostering social and community cohesion This important book builds on decades of work adding fresh insights that reflect the complexity of social and political issues faced in the UK What Race and colleagues have done is both courageous and coruscating Professor Paul W Miller Director of the Institute for Educational Social Equity UK This edited book is a powerful curation of narratives which set out pertinent and relevant perspectives on evolving dialogues in multiculturalism and multicultural education It is a timely comprehensive and insightful tome which will be a useful addition to any global anti racist bookshelf Dr Susan Davis Reader in Diversity Equity and Inclusion in Education School of Education and Social Policy Cardiff Metropolitan University UK Multicultural dialogues are as important now as ever This volume explores narratives in education that have developed internationally in response to changing policies and the modern world Its contributions reflect on the necessity of sustained dialogue within the wider social and political sciences alongside national and international politics to enable more multicultural voices to be heard and to respond to the challenges of the modern world Cultural diversity is a great societal strength and globalisation within education can increase our understanding of this This edited volume Comprises work by researchers from across the globe Draws on real life case studies and empirical evidence Consists of 20 chapters covering a range of topics Building on case studies from England Turkey Italy and more this text transcends national policy to ask what the core values of multicultural education truly are From policy and pedagogy to the impact on curricula it is essential reading for students and those working across the fields of education and sociology particularly with an interest in social justice inclusion and multiculturalism Richard Race is Senior Lecturer in Education at Teesside University UK and a Visiting Professor at Sapienza University Italy Richard is a member of the Executive Board of the Society of Educational Studies and Editorial Board Member of the British Journal of Educational Studies **Creative Frictions** Cecelia Cmielewski,2021-08-17 Creative Frictions explores the relationship between visionary aspects of practice and policy Despite over 30 years of arts and cultural policy attention there remains a widespread view among the general public and artists alike that creative production does

not reflect Australia's culturally diverse population. Australia's increasingly complex society can no longer be confined to essentialised or traditional definitions of ethnic communities. While this diversity and its emerging complexity can be celebrated as a source of creativity and innovation, it can also give rise to social, political and creative challenges. A key challenge that remains for the arts sector is its ability to support the creative expression of cultural difference. One measure of inclusive creative production is to look at the participation of artists of non-English speaking backgrounds (NESBs), a problematic term discussed in the book. There are half as many NESB artists compared to those of other professions participating in the workforce and while underrepresentation is an issue for management in the arts sector, the question of representation also benefits from being understood more broadly beyond the narrow sense of multiculturalism as a tool to manage cultural difference. This book explores the crucial role of creative leaders and how they work with the mainstream while maintaining their creative integrity and independence to generate a virtuous circle of change. *Creative Frictions* argues that it is the NESB artists who lead change in the arts sector and that creative and organisational leadership working in partnership make creative use of friction and develop the necessary trust to generate the traction for a supportive multicultural arts milieu.

Artist Management Guy Morrow, 2018-04-17 Artists are creative workers who drive growth in the creative and cultural industries. Managing artistic talent is a unique challenge and this concise book introduces and analyses its key characteristics. *Artist Management: Agility in the Creative and Cultural Industries* makes a major contribution to our understanding of the creative and cultural industries of artistic and managerial creativities and of social and cultural change in this sector. The book undertakes an extensive exploration of the increasingly pivotal role of artist managers in the creative and cultural industries and argues that agile management strategies are useful in this context. This book provides a comprehensive and accessible account of the artist-artist manager relationship in the twenty-first century. Drawing from research interviews conducted with artist managers and self-managed artists in five cities (New York, London, Toronto, Sydney and Melbourne), this book makes an original contribution to knowledge. Nation-specific case studies are highlighted as a means of illuminating various thematic concerns. This unique book is a major piece of research and a valuable study aid for both undergraduate and postgraduate students of subjects including arts management, creative and cultural industries studies, arts entrepreneurship, business and management studies and media and communications.

Improving Access to Mathematics Na'ilah Suad Nasir, Paul Cobb, 2007 Key experts with extensive research and classroom experience examine how the multiple dimensions of race, class, culture, power and knowledge interact in mathematics classrooms to foster and create inequities. Chapters explore new theoretical perspectives, describe successful classroom practices and offer insights into how we might develop an effective sociocultural approach to equity in math education. Seeing diversity as an instructional resource rather than as an obstacle to be overcome, this forward-looking volume helps us to understand the process by which diverse learners experience mathematics education. Examines the way students' identities can influence their mathematics

learning Describes mathematics education programs that have demonstrated their success with poor urban and rural students of color Explains why certain teaching and learning interventions are successful Offers culturally based approaches to mathematics education including activities for the classroom *The Multicultural Riddle* Gerd Baumann, 2002-09-11

Multicultural Riddle is a comprehensive exploration of all the issues that shape our search for a multicultural society The book examines how we can establish a state of justice and equality between and among three groups those who believe in a unified national culture those who trace their culture to their ethnic identity and those who view their religion as their culture To solve the multicultural riddle one must rethink national identity ethnicity and the role of religion in the modern world
