Making Microplans:

Microplanning manual to guide implementation of preventive chemotherapy to control and eliminate neglected tropical diseases World Health Organization, 2022-09-05 Neglected tropical diseases NTDs affect more than 1 billion people globally causing serious long term health effects Timely effective interventions such as preventive chemotherapy which involves the regular administration of safe effective medicines to a defined population irrespective of its infection status reduce morbidity and mortality The new NTD road map advocates preventive chemotherapy as a core intervention to reduce the burden of NTDs Effective administration of preventive chemotherapy relies largely on operational planning which addresses the need for programmes to reach all eligible people and maximize community demand for the intervention Local bottom up planning microplanning fosters effective implementation and monitoring of public health programmes Originally public health implementers developed microplanning for use in vaccination campaigns but various programmes including those for control and elimination of NTDs now use it This manual is based on these and other country experiences in microplanning of preventive chemotherapy for NTDs It describes the basic concepts of microplanning and provides steps and examples of tools to develop and implement a microplan Since microplanning originates at the lowest level of implementation and is a bottom up process the main target audience of this manual is individuals who are responsible for oversight of preventive chemotherapy against NTDs **RRA Notes Number 16 Special Issue on Applications for Health** IIED., 1992 The Spacemaker's Guide to Big Change Nabeel Hamdi, 2014-06-05 This book gives definition to participatory practice as a necessary form of activism in development planning for cities It gives guidance on how practice can make space for big and lasting change and for new opportunities to be discovered It points to ways of building synergy and negotiating our way in the social and political spaces in between conventional and often competing ideals public and private interests top down and bottom up formal and informal the global agendas which outsiders promote and the local needs of insiders for example It offers guidance on process designed to close gaps and converge worlds which we know have become divisive and discriminatory working from the detail of everyday life in search of beginnings that count building out and making meaningful locally the abstractions of the global causes we champion poverty alleviation environmental sustainability resilience Practice the collective process by which decisions are negotiated plans designed and actions taken in response to needs and aspirations locally and globally we will see is not just about being practical but more Its purpose is to give structure to our understanding of the order and disorder in our cities today then to disturb that order when it has become inefficient or inequitable even change it It is to add moral value to morally questionable planning practice and so build a social economy for the satisfaction of human need Practice in these spaces in between redraws the boundaries of expectation of disciplinary work and offers a new high ground of moral purpose from which to be more creative more integrated more relevant more resourceful more strategic **The Earthscan Reader in Sustainable Development**

John Kirkby, Phil O'Keefe, Lloyd Timberlake, 2023-01-23 Such a huge number of books journals and papers have been devoted to defining assessing and implementing sustainable development that students and other readers face information overload Earthscan alone has published hundreds of essays and books on the subject Now though the most authoritative writings have been carefully assessed and collected together in the Earthscan Reader in Sustainable Development The contributions included span five years of the debate and cover all the principle themes the history of the concept the problems in defining it the issues surrounding it and national international policies and schemes to implement it For ease of use the essays have been split into key subject areas such as agriculture population and the commons and they include practical case studies and examples together with analyses from a number of different viewpoints from both the North and South These seminal essays will provide readers with a unique overview of the subject as well as the long awaited basic course material for students of environmental studies economics geography politics planning and the social sciences Making Microplans Reinhard Goethert, Nabeel Hamdi, 1988 Microplanning is a community based process which enables local people to prepare and implement programmes for settlement upgrading Local participants contribute to both the content and structure of programmes Case studies from Chile and Sri Lanka The Community Planning Event Manual Nick Wates, John Thompson, 2013-06-17 This book helps promote practical work that changes the way people deliver projects in the sustainable communities sector It is useful user friendly and easy to follow This is the kind of book the busy practitioners of today need to support them in their work Professor Peter Roberts chairman of ASC the Academy for Sustainable Communities Nick Wates is a trail blazer in communicating clear concise and immediately useful tools and techniques that transmit energy and make you want to get stuck in This publication is amongst a handful of documents that all urban practitioners should have to **Regenerating Agriculture** Jules N. Pretty, 2013-11-05 For the past 50 years the main goal of agriculture has been to increase production at any price using high amounts of fertilizers and pesticides and intensive industrial methods This has caused damage to the environment and widespread rural depopulation This study shows that there is a viable alternative a form of agriculture which conserves resources maintains rural employment and minimizes the external costs without loss of productivity Using case studies from industrialized and developing countries the author describes the new technical institutional and policy options available **Wholesale Markets** J. D. Tracey-White, 1991-01-01 Wholesale marketing systems for fruit vegetables and other fresh foodstuffs such as livestock and fish are often inadequate They neither maximize benefits to producers nor to consumers This manual has been compiled to provide a systematic methodology based on the sequence of steps normally adopted in the development process The manual should be of practical value both to senior professionals and to technicians in undertaking marketing and engineering surveys in the preparation of feasibility studies and master plans and in formulating proposals for the provision of physical facilities Adapting Cities to Climate Change David Dodman, Jane Bicknell, David Satterthwaite, 2012-05-31 This volume brings together for the first time a

wide ranging and detailed body of information identifying and assessing risk vulnerability and adaptation to climate change in urban centres in low and middle income countries Framed by an overview of the main possibilities and constraints for adaptation the contributors examine the implications of climate change for cities in Africa Asia and Latin America and propose innovative agendas for adaptation The book should be of interest to policy makers practitioners and academics who face the challenge of addressing climate change vulnerability and adaptation in urban centres throughout the global South
