 Ruthmann, 2017-01-20 The Routledge Companion to Music Technology and Education is a comprehensive resource that  
 draws together burgeoning research on the use of technology in music education around the world Rather than following a  
 procedural how to approach this companion considers technology musicianship and pedagogy from a philosophical  
 theoretical and empirically driven perspective offering an essential overview of current scholarship while providing support  
 for future research The 37 chapters in this volume consider the major aspects of the use of technology in music education  
 Part I Contexts Examines the historical and philosophical contexts of technology in music This section addresses themes such  
 as special education cognition experimentation audience engagement gender and information and communication  
 technologies Part II Real Worlds Discusses real world scenarios that relate to music technology and education Topics such as  
 computers composition performance and the curriculum are covered here Part III Virtual Worlds Explores the virtual world  
 of learning through our understanding of media video games and online collaboration Part IV Developing and Supporting  
 Musicianship Highlights the framework for providing support and development for teachers using technology to understand  
 and develop musical understanding The Routledge Companion to Music Technology and Education will appeal to  
 undergraduate and post graduate students music educators teacher training specialists and music education researchers It  
 serves as an ideal introduction to the issues surrounding technology in music education      **Etude Music Magazine**
