Nexica,Matt Wray,2001-09-07 Bringing together new articles and essays from the controversial Berkeley conference of the same name The Making and Unmaking of Whiteness presents a fascinating range of inquiry into the nature of whiteness Representing academics independent scholars community organizers and antiracist activists the contributors are all leaders in the second wave of whiteness studies who collectively aim to combat the historical legacies of white supremacy and to inform those who seek to understand the changing nature of white identity both in the United States and abroad With essays devoted to theories of racial domination comparative global racisms and transnational white identity the geographical reach of the volume is significant and broad Dalton Conley writes on How I Learned to Be White Allan B rub discusses the intersection of gay identity and whiteness and Mab Segrest describes the spiritual price white people pay for living in a system of white supremacy Other pieces examine the utility of whiteness as a critical term for social analysis and contextualize different attempts at antiracist activism In a razor sharp introduction the editors not only raise provocative

questions about the intellectual social and political goals of those interested in the study of whiteness but assess several of the topic's major recurrent themes: the visibility of whiteness or the lack thereof; the emptiness of whiteness as a category of identification; and conceptions of whiteness as a structural privilege, a harbinger of violence, or an institutionalization of European imperialism. Race and the Making of American Liberalism Carol A. Horton, 2005-09-08. *Race and the Making of American Liberalism* traces the roots of the contemporary crisis of progressive liberalism deep into the nation's racial past. Horton argues that the contemporary conservative claim that the American liberal tradition has been rooted in a color-blind conception of individual rights is inaccurate and misleading. In contrast, American liberalism has alternatively served both to support and oppose racial hierarchy as well as socioeconomic inequality more broadly. Racial politics in the United States have repeatedly made it exceedingly difficult to establish powerful constituencies that understand socioeconomic equity as vital to American democracy and aspire to limit gross disparities of wealth, power, and status. Revitalizing such equalitarian conceptions of American liberalism, Horton suggests, will require developing new forms of racial and class identity that support rather than sabotage this fundamental political commitment. Congressional Record United States. Congress, 1999.

Stuck In The Sixties George Rising, 2010-11-08. The 1960s were a colorful, tumultuous age that transformed American society. Ever since the decade ended, Americans have debated the changes that it unleashed. While most liberals argue that the era's effects were mainly positive and long overdue, conservatives perceive the 1960s as a disastrous time that has left ruinous legacies for us. *Stuck in the Sixties* analyzes conservative views about the 1960s era and its legacies by examining their discourse about such sixties figures and movements as John F. Kennedy, Martin Luther King Jr., the civil rights movement, the Warren Court, the Great Society, the Vietnam War, the anti-war movement, the New Left, and the counterculture. The book reveals that for a generation, a focus on attacking and reversing the legacies of the 1960s has been essential to the conservative Republican agenda.

Whitney M Young Jr School of Social Work was founded in 1920 in Atlanta Georgia as the Atlanta School of Social Work to prepare social workers for practice in underserved black neighborhoods Spearheaded by black scholars and progressive whites during an era of racial segregation 2020 marks its centennial as the first accredited social work program at a historically black college and university In this book social work professor Alma J Carten describes the School s transitions from its beginnings amid the pervasive racism sanctioned by Supreme Court rulings in the Dred Scott and Plessy v Ferguson cases through the decades of 20th century progressive civil rights reforms and into the new conservatism of the 21st century Referencing archival documents Carten illustrates the School s commitment to the democratic principles of the profession despite the blatant racism of the segregated South and the less visible structural inequalities following desegregation from which mainstream social work education was not immune The book describes the influence of iconic thought leaders on the School s culture and academic programs beginning with Jesse O Thomas s speech on the need for a black school of social work given from the segregated section of the 1920 National Conference on Social Work and including W E B DuBois Atlanta University Studies that pioneered the model of social progress powered by science E Franklin Frazier and Forrester B Washington who championed black social work and the integration of race critical content in the curriculum of all schools and Whitney M Young Jr who chastised social workers for their waning interest in advocacy for marginalized populations and encouraged them to become politically active Carten examines the evolution of the School within the context of changes in US social welfare policy CSWE accrediting standards and NASW Code of Ethics Highly readable the book brings to light the under reported contributions of HBCU social work programs to social work education and it thoughtfully engages with the School s efforts to legitimize the Afrocentric perspective and the humanistic values embraced by HBCU social work programs
