## **Making Of Rubens:**

**The Making of Rubens** Svetlana Alpers, 1996 The second problem is that of art and its consumption Beginning with Watteau the making of a Rubensian art is traced in the taste for Rubens in the eighteenth century in France where many of the pictures he had kept for his own collection had found their way In the writings of Roger de Piles and in the work of the painters to follow art is made out of the viewing and discussing of art A binary system of taste emerged for Rubens as contrasted with Poussin and critical distinctions came to be fashioned in the binary terms of gender Finally Alpers considers creativity itself and how as a man and as a painter Rubens could have viewed his own generative talent An analysis of his Munich Silenus fleshy intoxicated and following Virgil's account disempowered as a condition of producing his songs reveals a sense of the creative gift as humanly indeterminate and equivocal ~THEœ MAKING OF RUBENS.
