Camarinha-Matos, 2006-01-04 Industries and particularly the manufacturing sector have been facing difficult challenges in a context of socio economic turbulence characterized by complexity as well as the speed of change in causal interconnections in the socio economic environment In order to respond to these challenges companies are forced to seek new technological and organizational solutions In this context two main characteristics emerge as key properties of a modern automation system agility and

distribution Agility because systems need not only to be flexible in order to adjust to a number of a priori defined scenarios but rather must cope with unpredictability Distribution in the sense that automation and business processes are becoming distributed and supported by collaborative networks Emerging Solutions for Future Manufacturing Systems includes the papers selected for the BASYS 04 conference which was held in Vienna Austria in September 2004 and sponsored by the International Federation for Information Processing IFIP

2018 Review of the Fund's Capacity Development Strategy International Monetary Fund,2018-11-20 Capacity development CD is one of the Fund s three core activities and has grown in importance in recent years It supports member countries efforts to build the institutions and capacity necessary to formulate and implement sound economic policies thereby complementing the Fund s surveillance and lending mandates Member countries partners and external commentators give the Fund high marks for the quality of its CD At the same time efforts need to continue to strengthen Fund CD to serve members current and evolving needs The 2018 CD Strategy Review examines progress under the Fund s 2013 CD Strategy and proposes a CD strategy for the next five years It notes substantial progress in addressing the 2013 recommendations which included strengthening the CD governance structure enhancing the

prioritization processes clarifying the funding model strengthening monitoring and evaluation promoting greater integration of TA and training exploiting new technologies for delivery and leveraging CD as outreach However background work for this review also pointed to the need to strengthen the CD framework further The review builds upon the existing CD strategy focusing on two mutually reinforcing objectives First the impact of Fund CD needs to be increased by further strengthening integration with the Fund s policy advice and lending operations while continuing to make progress in framing CD through comprehensive strategies tailored to each member s needs capacity and conditions focusing on implementation and outcomes Stronger coordination between CD and the Fund s other core functions will better connect CD with countries risks and vulnerabilities and ensure surveillance and lending integrate lessons from CD more effectively Second the efficiency of CD needs to be increased by improving CD processes and systems This will enhance transparency and strengthen the basis for strategic decision making Five specific areas of recommendations support the strategy Likewise they mitigate institutional risks stemming from the Fund s CD activities They include clearer roles and responsibilities for key internal and external stakeholders in the CD process continued strengthening of prioritization and monitoring better tailoring and modernization of CD delivery with a focus on implementation of TA recommendations greater internal consultation and sharing of CD information and further progress in external coordination communication and dissemination of information Annex I
