The Making of Party Democracy in Greece Takis Spyros Pappas, 1995

Greece and the Cold War Alexander Kazamias, 2022-08-25 After the proclamation of the Truman Doctrine in 1947 the United States became deeply involved in Greek affairs. By 1952 however the pro-Western government of Marshal Papagos began to support the nationalist Enosis movement in Cyprus and called for an end to British colonial rule in the island. The opposition of the US, Britain and Turkey to these demands brought Greece face to face with its closest allies at the United Nations in 1954 and led to the outbreak of the first major crisis within NATO since its creation. Greece and the Cold War examines these developments from the novel perspective of critical international theory and exposes the unexplored connections between dependence and nationalism in Greek foreign policy. Drawing on a wide range of American, British and Greek archival sources it argues that nationalism and compliance with the collective interests of NATO were two irreconcilable objectives in Greek foreign policy after 1952. At the same time the book tells the story of how the post-Civil War governments of Greece for a variety of political, cultural and ideological reasons treated these two objectives as essentially compatible, resulting in the adoption of a dualist policy. This self-contradictory diplomatic doctrine, which the author refers to as dependent nationalism, lies at the heart of Greece's post-War failures both to emancipate its politics from US intervention and to peacefully end its regional dispute with Turkey over Cyprus. The book deploys an interdisciplinary approach which brings together the diverse perspectives of diplomatic history, foreign policy analysis and political sociology.

**Austerity and the Third Sector in Greece** Jennifer Clarke, Asteris Huliaras, 2016-03-09 Organised civil society in Greece is generally regarded as weak, with rankings for associational density, volunteerism and levels of social capital traditionally among the lowest in Europe. *Austerity and the Third Sector in Greece* explores the context behind the statistics and general perceptions of a society of takers not givers. Stereotypes of a country living beyond its means have been exacerbated by the Eurozone

crisis but since 2008 there has in fact been a great proliferation of organised civil society initiatives in the country Has the financial crisis seen a belated awakening of Greek civil society Offering a broad overview of contemporary civil society in Greece this book explores how various characteristics of the country s socio political context have affected the development of the third sector and examines the effect of the economic crisis on it Expert contributors combine macro level analyses with local case studies to form a fascinating new study on the influences of national and regional context on civil society development Their findings provide not only for a better understanding of similar movements but also contribute to wider academic debates on societal responses to economic crises

Europe's Last Red Terrorists George Kassimeris,2001-12 Since the 1970s Europe s last Marxist Leninist terrorists the Greek Revolutionary Organization 17 November have waged a violent campaign against US and NATO personnel Turkish diplomats and members of the Greeks military and business elite In May 2000 they assassinated a top British diplomat in Athens in a daring daylight attack Yet no one suspected of belonging to the organization let alone of being involved in its terror campaign has ever been arrested This is the first book to deal with revolutionary terrorism in Greece Tracing the history of 17 November Kassimeris demonstrates how it has persevered with a one dimensional view of a world peopled by heroes and villains that has precluded the emergence of a coherent ideology Combining fanatical nationalism contempt for the existing order and the cult of violence for its own sake 17 November has stubbornly refused to accept that its eclectic belief system is incompatible with modern democratic principles Unlike Italy s Red Brigades or Germany s Red Army Faction which both assailed the capitalist state and its agents 17 November hopes to create an insurrectionary mood that will propel the Greeks into revolutionary political action without disrupting society as a whole As such 17 November s terror campaign has been an audacious protest aimed at discrediting and humiliating the Greek establishment and the US government but one that has never sought to develop widespread revolutionary guerrilla warfare
