The chapters presented here look at myriad aspects of India's relations with its neighbours and global powers farther afield, including the US, the European Union, Russia, and China. India's policies, influences, and strengths, developments in economy, knowledge, and innovation amid evolving global realities, as well as geostrategic equations and alliances, its present and future plans vis-à-vis its standing in the world, and how international politics is likely to emerge in the coming years. The volume will be useful to academics, researchers, and students of politics and international relations, as also to policy practitioners and those in media interested in Indian affairs, foreign policy, and international relations. **New African**

Diasporas Khalid Koser, 2003-09-02. The extensive literature relating to the African diaspora has tended to concentrate on the descendants of those who left Africa as part of the slave trade to North America. This important new book gathers together work on more recent waves of African migration from some of the most exciting thinkers on the contemporary diaspora. Concentrating particularly on the last 20 years, the contributions look to the United States and beyond to diaspora settlement in the UK and Northern Europe. **New African Diasporas** looks at a range of different types of diaspora: legal and illegal, professional and low skilled, asylum seekers and economic migrants, and includes chapters on diasporic communities originating in Côte d'Ivoire, Democratic Republic of Congo, Eritrea, Ghana, Senegal, and Somalia. It also examines often neglected differences based on gender, class, and generation in the process. This book will be essential reading for anyone with an interest in the African diaspora and provides the most wide-ranging picture of the new African diaspora yet.

Moving Lives Kathy Burrell, 2017-03-02 Immigrants in Britain are often viewed as just that immigrants. Their experiences as migrants are sidelined in favour of discussions about assimilation and integration, how they adapt to us. This book refocuses debates about migration by following the experiences, memories and perceptions of three migrant groups in Britain: the Polish, Italian and Greek Cypriot populations. In tracing some of the key themes of migration narratives, Kathy Burrell illustrates that the act of migration creates enduring legacies which continue to influence the everyday lives of migrants long after they have moved. The book is structured around four key themes. The first is the migration process itself. Burrell highlights the important contrast between voluntary and involuntary migration, examining the different memories and legacies of migration. The second theme is the national as opposed to ethnic identities of the groups studied. The author demonstrates how national consciousness survives the upheaval of migration and is perpetuated through the recognition of national histories, myths and traditional rituals. The third theme is a memory of the homeland. The author traces her respondents' memories and experiences of their national territory, focusing particularly on the transnational connections that are established with the homeland after migration. Finally, Burrell considers community, analyzing her respondents' experiences of community life and the shared social and cultural norms and values that underpin it.
