New Evangelicalism An Enemy Of Fundamentalism:

New Evangelicalism Curtis Hutson,1984 **Fundamentalism and Evangelicalism** Martin E. Marty,2011-06-15 No detailed description available for Fundamentalism and Evangelicalism *Fundamentalism and Evangelicals* Harriet A. Harris,1998-06-11 Fundamentalism is a label used often pejoratively of religious conservatism Evangelicals are growing in number and power around the world and are frequently regarded as fundamentalist This volume examines fundamentalism as a mentality which has greatly affected evangelicalism but which some evangelicals now wish to leave behind **The Theology of Dallas Willard** Gary Black Jr.,2013-08-06 Evangelical Christianity in the United States is currently in a dramatic state of change Yet amidst this sometimes tumultuous religious environment a rather unique blend of both ancient and contemporary Christian theology has found its way into the hearts and minds of emerging generations of Christians The Theology of Dallas Willard both describes and conveys the essence of this increasingly popular and perhaps mediating view of the gospel of Jesus Christ Blending both a prophetic critique with pastoral encouragement Willard s unique understanding of the reality present within a life lived as a disciple of Jesus in the kingdom of God is attracting both new and traditional Christians to reconsider their faith *The Sociology of Religion* George Lundskow,2008-06-10 Most Sociology of Religion texts are decidedly staid and uninteresting covering contemporary developments which are only contemporary only from a disciplinary perspective They are not contemporary if viewed from the perspective of the religion s practioners in religious and non religious settings The textbooks that attempt to be interesting to undergraduate students often fall short because they either try to cover too much in an encyclopedic format or sacrifice a sociological perspective for a personal one Many use real life examples only superficially to illustrate concepts Lundskow s approach is the opposite students will learn the facts of religion in its great diversity all the most interesting and compelling beliefs and practices and then learn relevant concepts that can be used to explain empirical observations The book thus follows the logic of actual research investigate and then analyze rather than approaching concepts with no real bearing on how religion is experienced in society This approach using provocative examples and with an eye toward the historical and theoretical not to mention global experience of religion will make this book a success in the classroom The author envisions a substantive approach that examines religion as it actually exists in all its forms including belief ritual daily living identity institutions social movements social control and social change Within these broad categories the book will devote particular chapters to important historical moments and movements leaders and various individual religions that have shaped the contemporary form and effect of religion in the world today **Fundamentalist U** Adam Laats,2018 Adam Laats offers a provocative and definitive new history of conservative evangelical colleges and universities institutions that have played a decisive role in American politics culture and religion This book looks unflinchingly at the issues that have defined these schools including their complicated legacy of conservative theology and social activism **Coming to Grips with the Age of Reason** David Lee Russell,1993

Understanding Fundamentalism and Evangelicalism George Marsden, 1991 A balanced overview and narrative survey of American fundamentalism and Evangelicalism as well as an interpretive analysis of several important themes PB 208 pages suitable as a supplemental text for colleges seminaries or church study *The Resurgence of Religion* David S. Zeidan, 2018-11-13 This book is a comparative study of basic themes in Christian and Islamic fundamentalist discourses analyzing and comparing texts from a wide variety of fundamentalist leaders and movements looking for family resemblances and significant differences in order to better understand the contemporary phenomenon of religious resurgence After placing fundamentalisms in a theoretical framework the study looks at selected themes important to fundamentalists noting resemblances and differences These themes include their anti secularist stance their theocentric worldviews their reliance on inerrant sacred scriptures and their attitudes to politics government state and democracy The study also looks at the fundamentalist view of the world as a perennial battlefield between the forces of good and those of evil in the realm of ideologies as well as politics and the legitimization of violence

The Making and Unmaking of an Evangelical Mind Rudolph Nelson, 2002-11-07 The first half of this book takes a biographical approach to its subject examining Carnell's early life and education while the second half of the book looks topically at the issues that shaped Carnell's career and as the author proposes may have led to his psychological undoing Through the lens of Carnell's personal struggle this book offers a provocative view into the larger cultural tensions unleashed by new modes of secular thought that challenged the framework of American religious life during the middle years of the twentieth century

Four Views on the Spectrum of Evangelicalism Kevin Bauder, R. Albert Mohler, Jr., John G. Stackhouse, Jr., Roger E. Olson, 2011-10-04 Understand the history core values and divisions as they've developed within the Evangelical Christian movement Four Views on the Spectrum of Evangelicalism compares and contrasts four distinct positions on the current fundamentalist evangelical spectrum Each contributor offers their case for one of four primary views Fundamentalism defended by Kevin T Bauder Conservative confessional evangelicalism defended by R Albert Mohler Jr Generic evangelicalism defended by John G Stackhouse Jr Postconservative evangelicalism defended by Roger E Olson Each author explains and defends his position which is critiqued by the other three authors The Counterpoints series presents a comparison and critique of scholarly views on topics important to Christians that are both fair minded and respectful of the biblical text Each volume is a one stop reference that allows readers to evaluate the different positions on a specific issue and form their own educated opinion

Reforming Fundamentalism George M. Marsden, 1995 A sequel and companion to the author's widely acclaimed *Fundamentalism and American Culture* this book uses the history of Fuller Theological Seminary as a lens through which to focus an examination of the broader story of evangelicalism and fundamentalism since the 1940s *The Scandal of Evangelicals and Homosexuality* Mark Vasey-Saunders, 2016-03-09 English evangelicals give the appearance of being a community at war with each other and with the world around them The issue of homosexuality is one of the key

battlegrounds How has this issue become so significant to evangelicals Why is it provoking such violent responses How is it changing evangelicals and what might this mean for the future This book examines the history of evangelical responses to the issue of homosexuality setting them in a wider historical and cultural context and drawing on the work of Rene Girard to argue that the issue of homosexuality has come to symbolise deeply held convictions within evangelicalism The conflict over the issue that is now becoming apparent within evangelicalism reveals deep divisions within the evangelical community that will have great significance for the future The Scandal of Evangelicals and Homosexuality offers an alternative perspective seeking not to present an answer to the ethical question but rather to examine the way the debate has become scandalised and consider the cost It offers a window into contemporary English evangelicalism and provides an important contribution to international and ecumenical debate

Religious Fundamentalism and Social Identity Peter Herriot, 2014-02-25 The attacks on the World Trade Centre and the Pentagon in the United States of September 11th 2001 brought the phenomenon of religious fundamentalism to the world's attention Sociological research has clearly demonstrated that fundamentalists are primarily reacting against modernity and believe that they are fighting for the very survival of their faith against the secular enemy But we understand very little about how and why people join fundamentalist movements and embrace a set of beliefs values and norms of behaviour which are counter cultural This is essentially a question for social psychology since it involves both social relations and individual selves Drawing on a broad theoretical perspective social identity theory Peter Herriot addresses two key questions why do fundamentalists identify themselves as an in group fighting against various out groups And how do the psychological needs for self esteem and meaning motivate them Case studies of Mohammed Atta the leader of the 9 11 hijackers and of the current controversy in the Anglican Church about gay priests and bishops demonstrate how fruitfully this theory can be applied to fundamentalist conflicts It also offers psychologically sensible ways of managing such conflicts rather than treating fundamentalists as an enemy to be defeated Religious Fundamentalism and Social Identity is unique in applying social identity theory to fundamentalism and rare in that it provides psychological in addition to sociological analyses of the phenomenon It is a valuable resource for courses in social psychology which seek to demonstrate the applicability of social psychological theory to the real world

Crucial Truths for Crucial Days H. T. Spence, 2003

For the Gospel's Sake Boone Aldridge, 2018-04-12 Informed take on the amazing growth of a very unusual missionary organization The two sided mission organization comprising Wycliffe Bible Translators and the Summer Institute of Linguistics is a paradox that begs for an explanation The Summer Institute has long been doing laudable linguistic humanitarian work in many countries while Wycliffe has been one of the largest fastest growing and most controversial Christian missionary enterprises in the world In

this wide ranging study Boone Aldridge a religious historian and twenty year insider at WBT SIL looks back at the organization s early years from its inception in the 1930s to the death of its visionary founder William Cameron Townsend in 1982 He situates the iconic institution within the evolving landscape of mid twentieth century evangelicalism examines its complex and occasionally confusing policies and investigates the factors that led despite persistent criticism from many sides to its remarkable rise to prominence

The Evangelicals Frances FitzGerald,2017-04-04 Winner of the 2017 National Book Critics Circle Award National Book Award Finalist Time magazine Top 10 Nonfiction Book of the Year New York Times Notable Book Publishers Weekly Best Books of 2017 This epic history The Boston Globe from Pulitzer Prize winning historian Frances FitzGerald is the first to tell the powerful dramatic story of the Evangelical movement in America from the Puritan era to the 2016 election We have long needed a fair minded overview of this vitally important religious sensibility and FitzGerald has now provided it The New York Times Book Review The evangelical movement began in the revivals of the eighteenth and nineteenth centuries known in America as the Great Awakenings A populist rebellion against the established churches it became the dominant religious force in the country During the nineteenth century white evangelicals split apart first North versus South and then modernist versus fundamentalist After World War II Billy Graham attracted enormous crowds and tried to gather all Protestants under his big tent but the civil rights movement and the social revolution of the sixties drove them apart again By the 1980s Jerry Falwell and other southern televangelists such as Pat Robertson had formed the Christian right Protesting abortion and gay rights they led the South into the Republican Party and for thirty five years they were the sole voice of evangelicals to be heard nationally Eventually a younger generation proposed a broader agenda of issues such as climate change gender equality and immigration reform Evangelicals now constitute twenty five percent of the American population but they are no longer monolithic in their politics They range from Tea Party supporters to social reformers Still with the decline of religious faith generally FitzGerald suggests that evangelical churches must embrace ethnic minorities if they are to survive A well written thought provoking and deeply researched history that is impressive for its scope and level of detail The Wall Street Journal Her brilliant book could not have been more timely more well researched more well written or more necessary The
