Portrait Zurich:

The Zurich Connection and Tudor Political Theology Torrance Kirby, 2007-03-01 Should students of Tudor political thought be interested in a feisty Swiss republican who hardly set foot outside his home canton of Zurich and a Florentine aristocrat who spent just five years of his career in England This book presents the case for including two leading lights of the Schola Tigurina Heinrich Bullinger and Peter Martyr Vermigli among the chief architects of the protestant religious and political settlement constructed under Edward VI and consolidated under Elizabeth I Through study of selected texts of their political theology this book explores crucial intellectual links between England and Zurich which came to exert a significant influence on the institutions of the Tudor church and commonwealth

The Portrait Now Sandy Nairne, Sarah Howgate, 2006-01-01 Provides a collection of contemporary portraits from around the world *Portraits by Ingres* Jean-Auguste-Dominique Ingres, National Gallery (Great Britain), 1999 Om portr tter af den franske maler Jean Auguste Dominique Ingres 1780 1867

Fuseli Studies Frederick Antal, 2022-11-30 First published in 1956 Fuseli Studies deals with the many sided artistic achievements of Zurich born Fuseli s baffling personality who was one of the most erudite and renowned intellectuals of his day in Europe The author s intention has been to place his subject in clear historical perspective within his own epoch and thus traces Fuseli s contacts back to sixteenth century mannerism and forward to twentieth century expressionism In this book the social background of that absorbing period covering the artist s working years at the turn of the nineteenth century is evoked not only in analysing his style poised between classicism and romanticism of the age but also accounting for its appeal and relevance to the present day This book will be of interest to students of art art history European history and literature

The Age of Insight Eric Kandel, 2012-03-27 A brilliant book by Nobel Prize winner Eric R Kandel The Age of Insight takes us to Vienna 1900 where leaders in science medicine and art began a revolution that changed forever how we think about the human mind our conscious and unconscious thoughts and emotions and how mind and brain relate to art At the turn of the century Vienna was the cultural capital of Europe Artists and scientists met in glittering salons where they freely exchanged ideas that led to revolutionary breakthroughs in psychology brain science literature and art Kandel takes us into the world of Vienna to trace in rich and rewarding detail the ideas and advances made then and their enduring influence today The Vienna School of Medicine led the way with its realization that truth lies hidden beneath the surface That principle infused Viennese culture and strongly influenced the other pioneers of Vienna 1900 Sigmund Freud shocked the world with his insights into how our everyday unconscious aggressive and erotic desires are repressed and disguised in symbols dreams and behavior Arthur Schnitzler revealed women s unconscious sexuality in his novels through his innovative use of the interior monologue Gustav Klimt Oscar Kokoschka and Egon Schiele created startlingly evocative and honest portraits that expressed unconscious lust desire anxiety and the fear of death Kandel tells the story of how these pioneers Freud Schnitzler Klimt Kokoschka and Schiele inspired by the Vienna School of Medicine in

turn influenced the founders of the Vienna School of Art History to ask pivotal questions such as What does the viewer bring to a work of art How does the beholder respond to it These questions prompted new and ongoing discoveries in psychology and brain biology leading to revelations about how we see and perceive how we think and feel and how we respond to and create works of art Kandel one of the leading scientific thinkers of our time places these five innovators in the context of today's cutting edge science and gives us a new understanding of the modernist art of Klimt Kokoschka and Schiele as well as the school of thought of Freud and Schnitzler Reinvigorating the intellectual enquiry that began in Vienna 1900 The Age of Insight is a wonderfully written superbly researched and beautifully illustrated book that also provides a foundation for future work in neuroscience and the humanities It is an extraordinary book from an international leader in neuroscience and intellectual history

Life Stories of Women Artists, 1550-1800

Julia K. Dabbs, 2020-08-18 The struggles and achievements of forty six notable women artists of the early modern period as documented by their contemporaries are uniquely brought together in this anthology The life stories presented here are foundational texts for the history of art but since most are found only in rare volumes and few have been translated into English until now they have been generally inaccessible to many scholars Originally published in biographical compendia such as Vasari's Lives of the Artists the writings included here document not only the lives of relatively well known women artists such as Artemisia Gentileschi and Sofonisba Anguissola but also those who have languished in obscurity like Anna Waser and Li Yin Each life story is preceded by a brief introduction to the artist as well as to her biographer and the texts themselves are annotated to provide necessary clarification Beyond their documentary value these stories provide fascinating insight as to how men commonly characterized women artists as exceptions to their sex and attempted to explain their presence in the male dominated realm of art The introductory chapter to the book explores this intriguing gender dynamic and elucidates some of the strategies and historical context that factored into the composition of these lives The volume includes an appended index to women artists life stories in biographical compendia of the period
