Principles To Live By In America:

Principles to Live by in America Richard R. Stackpole, 1995-06-01 American Citizenship and Constitutionalism in Principle and Practice Steven F. Pittz, Joseph Postell, 2022-01-13 Questions at the very heart of the American experiment about what the nation is and who its people are have lately assumed a new even violent urgency As the most fundamental aspects of American citizenship and constitutionalism come under ever more powerful pressure and as the nation's politics increasingly give way to divisive partisan extremes this book responds to the critical political challenge of our time the need to return to some conception of shared principles as a basis for citizenship and a foundation for orderly governance In various ways and from various perspectives this volume's authors locate these principles in the American practice of citizenship and constitutionalism Chapters in the book's first part address critical questions about the nature of U S citizenship subsequent essays propose a rethinking of traditional notions of citizenship in light of the new challenges facing the country With historical and theoretical insights drawn from a variety of sources ranging from Montesquieu John Adams and Henry Clay to the transcendentalists Cherokee freedmen and modern identitarians *American Citizenship and Constitutionalism in Principle and Practice* makes the case that American constitutionalism as shaped by several centuries of experience can ground a shared notion of American citizenship To achieve widespread agreement in our fractured polity this notion may have to be based on thin political principles the authors concede yet this does not rule out the possibility of political community By articulating notions of citizenship and constitutionalism that are both achievable and capable of fostering solidarity and a common sense of purpose this timely volume drafts a blueprint for the building of a genuinely shared political future *Writings of an American Mother in 2010: Principles of the Founding Fathers and Current Issues* Mary E. Ali, 2011-06-29 As I progressed on my leadership training through Lamp The Institute for Leadership in Physical Therapy I ran into some resistance in completing my I ILP project there must be something about leadership that I was not getting So I went to my plan B What Leader or Leaders would I like to have dinner with and get into their brains and hearts Humm the Founding Fathers of the United States of America for they created a new unique government Dr W Cleon Skousen published *The Five Thousand Year leap A Miracle That Changed the World* This book is easy to read and brought the confusion of politics into clear focus Dr Skousen said many times that the Founder's success formula would solve nearly every problem we have in America today Really Can any knowledge be more helpful to the rising generation of Leaders in America The purpose of my book *The Writings of an American Mother in 2010* is to encourage people to review our past our history as a country the 28 Principles of our Founding Fathers and how they relate to current issues then develop your own viewpoint through critical thinking and doing your own homework becoming an Active American Citizen Show More Show Less **Report of the Proceedings of the ... Meeting of the Convention of American Instructors of the Deaf** Convention of American Instructors of the Deaf. Meeting, 1924 List of members in 15th **The Fourth Power** Gary

Hart, 2004-07-15 Today even as America asserts itself globally it lacks a grand strategy to replace containment of communism In this short sharp book Gary Hart outlines a new grand strategy one directing America's powers to the achievement of its large purposes Central to this strategy is the power of American ideals what Hart calls the fourth power Constitutional liberties representative government press freedom these and other democratic principles attractive to peoples worldwide constitute a resource that may prove as important to national security and the national interest in this dangerous new century as traditional military economic and political might A bracing vision of an America responsive to a full spectrum of global challenges The Fourth Power calls for a deeper understanding both of the threats we face and the profound strengths at our disposal to fight them

American Vegetarian and Health Journal, 1854 **Abortion and America's Churches** Daniel K. Williams, 2025-10-01 Abortion and America's Churches explores the surprising history of how American Christians think about abortion Many people assume that Christians have steadfastly condemned abortion throughout the United States's history Daniel K Williams overthrows all assumptions about the unity consistency or simplicity of American Christian thought and belief in this groundbreaking new book He demonstrates that churches in the United States have fought among themselves and with the wider culture as they developed and enforced their stance on abortion revealing major struggles to define their often changing positions Far from a cynical exercise of political interest changes and disagreements arose from serious theological considerations informed by each tradition's approach to the faith These theological shifts and corresponding shifts in interreligious political alliances led to the changing fortunes of Roe v Wade By capturing the fascinating and complicated history informing each faith's position Abortion and America's Churches restores much needed context to the sharp polarization over abortion today
