The Consumption of Inequality K. Halnon, 2013-09-18 The fads, fashions and media in popular consumer culture frequently make recreational and ideological fun of poverty and lower class living In this book Halnon delineates how incarceration, segregation, stigmatization, cultural and social consecration and carnivalization work in the production and consumption of inequality

Public Housing and the Legacy of Segregation Margery Austin Turner, Susan J. Popkin, Lynette A. Rawlings, 2009 For the past two decades the United States has been transforming distressed public housing communities with three ambitious goals: replace distressed developments with healthy mixed income communities; help residents relocate to affordable housing often in the private market; and empower former public housing families toward economic self-sufficiency The transformation has focused on deconcentrating poverty but not on the underlying role of racial segregation in creating these distressed communities In *Public Housing and the Legacy of Segregation* scholars and public housing officials assess whether and how public housing policies can simultaneously address the problems of poverty and race

From Slave Ship to Supermax Patrick Elliot Alexander, 2018 Introduction: antipanoptic expressivity and the new neo-slave novel Talking in George Jackson's shadow: neoslavery, police intimidation and imprisoned intellectualism in Baldwin's *If Beale Street Could Talk* Middle passage reinstated: whispers from the women's prison in Morrison's *Beloved* Didn't I say this was worse than prison: the slave ship Supermax relation in Johnson's *Middle Passage* Tell them I'm a man: slavery's vestiges and imprisoned radical intellectualism in Gaines's *A Lesson Before Dying* Epilogue: the prison classroom and the neo-abolitionist novel

Presidential Rhetoric and the Public Agenda Andrew B. Whitford, Jeff Yates, 2009-11-01 The bully pulpit is one of the modern president's most powerful tools and one of the most elusive to measure *Presidential Rhetoric and the Public Agenda* uses the war on drugs as a case study to explore whether and how a president's public statements affect the formation and carrying out of policy in the United States When in June 1971 President Richard M. Nixon initiated the modern war on drugs he did so with rhetorical flourish and force setting in motion a federal policy that has been largely followed for more than three decades Using qualitative and quantitative measurements Andrew B. Whitford and Jeff Yates examine presidential proclamations about battling illicit drug use and their effect on the enforcement of anti-drug laws at the national, state and local level They analyze specific pronouncements and the social and political contexts in which they are made examine the relationship between presidential leadership in the war on drugs and the policy agenda of the Drug Enforcement Administration and the U.S. Attorneys and assess how closely a president's drug policy is implemented in local jurisdictions In evaluating the data this sophisticated study of presidential leadership shows clearly that with careful consideration of issues and pronouncements a president can effectively harness the bully pulpit to drive policy Abu
