Cult Pop Culture Bob Batchelor, 2011-12-07 This three volume collection of original essays examines cult pop culture, the often seedy underbelly of American popular culture. *Cult Pop Culture: How the Fringe Became Mainstream* is the first collection dedicated to the quirky, offbeat aspects of American popular culture that people have loved, enjoyed and in some cases worshiped over the last 50 years. By examining the people and subjects we hold most dear, this three volume set offers deep insights into what Americans think, feel and cherish. Organized by subject, the collection enables readers to focus on a given topic or compare different subjects across cult phenomenon. Volume One of the set covers film and television topics. Volume Two examines music and literature and Volume Three explores sports, clubs and the cult industry. Through this investigation of sublime, transcendent and idiosyncratic trends, readers will learn more about iconic individuals, topics and subjects that form the vast underbelly of American culture. By revealing how tightly interwoven cult topics are with the public's broader notion of popular culture, the collection underscores the blurry line between normal and abnormal, grandiose and degradation.

Women and Literacy Beth Daniell, Peter Mortensen, 2020-08-17 Path breaking research on women and literacy in the past decade established conventions and advanced innovative methods that push the making of knowledge into new spheres of inquiry. Taking these accomplishments as a point of departure, this volume emphasizes the diversity of approaches and subjects that characterizes the next generation of research on women and literacy. It builds on and critiques scholarship in literacy studies, composition studies, rhetorical theory, gender studies, postcolonial theory and cultural studies to open new venues for future research. Contributors discuss what literacy is, more precisely what literacies are, but their strongest interest is in documenting and theorizing women's lived experience of these literacies with particular attention to the diversity of women's literacies within the U.S., including but not limited to the varying relations that exist among women, literacy, economic position, class, race, sexuality and education, relations among women, literacy and economic contexts in the U.S. and abroad, including but not limited to changes in women's private and domestic literacies, the evolution of technologies of literacy and women's experience of the commodification of literacies and emergent roles of women and literacy in a globally interdependent world. This broad, significant work is a must read for researchers and graduate students across the fields of literacy studies, composition studies, rhetorical theory and gender.
