Hathersage Castleton Glossop Sheffield **Caving, Canyoning, Coasteering....** Patrick Kinsella, 2023-07-05 You don't need to be ultra fit or highly experienced in the outdoors to enjoy outdoor guru Patrick Kinsella's selection of 30 activities across Britain. A sense of adventure and an explorer's heartbeat is all that's required, he says, and he should know, having spent two decades walking, running, riding, paddleboarding, swimming, canoeing, kayaking, and more besides in all corners of the country. Bradt's *Caving Canyoning Coasteering* is both an atlas of adventure and a book of secrets, enticing readers out of their comfort zone to explore the often unseen elements and quieter corners of Britain where the wild experiences live. Some of the activities described take place on the very edges of large urban centres, easily accessible for anyone, yet even many locals don't know about them. Others happen in far-flung corners of the country, places people may never have considered exploring. This title will take you on a highly adventurous tour of Britain's extraordinary cliffs, caves, canyons, coasts, forests, fells, beaches, Munros, moors, and tors via a range of outdoor pursuits, many of which were conceived and pioneered on this island, says Kinsella. It's all about wild time spent in wonderful places, from the mysterious depths of the labyrinthine limestone underworld beneath the Mendip Hills to the top of ice-clad arêtes and snow-dusted peaks of monstrous Munros in the Scottish Highlands, via seascapes and sub-aquatic environment in Devon and Cornwall, tumbling streams and ghylls in the Lake District, and cascade-concealed caverns in the waterfall-soaked world of the Bannau Brycheiniog. Brecon Beacons in Wales. It's not for the faint of heart, but there are escapades here to excite everyone. Whether you're an experienced outdoor type or someone who's new to the outdoors but seeking guidance on where to go and what to do, a wildlife and fresh air enthusiast or an armchair traveller, a lone adventurer or family with young children, *Caving Canyoning Coasteering* is brimful of ideas. And if the adrenaline gets too much, you'll even find advice on the sedate Japanese art of forest bathing. *Rocky Rambles in the Peak District* Frederick Munro Broadhurst, 2001 *Walks in the Ancient Peak District* Robert Harris, 2005 Contains a collection of walks visiting the well-known and hard-to-find prehistoric monuments and sites of the Peak District. Divided into four sections, this book includes the White Peak with its familiar limestone plateau and deep-cut dales, and the high gritstone moorland of the Dark Peak and the Western and Eastern Moors. *Mountaineering and Its Literature* Jill Neate, 1980 Few areas of human endeavor and adventure have such an extensive literature as does mountaineering, perhaps, because the activity itself is so diverse, ranging from gymnastic feats of modern rock climbers through alpinism to Himalayan conquests and exploration. Even before Edward Whymper climbed the Matterhorn in 1865 and wrote the celebrated *Scrambles in the Alps*, mountaineers had felt compelled to record their adventures and their sense of wonder at the mountain world. In recent years, the literature has expanded considerably to account for the phenomenal growth of mountain activities. Expeditions are now commonplace, and the great mountain ranges are no longer beyond the reach of the average climber. This extensive bibliography describes works on mountaineering published in the English language since 1744. But it's far more than a dry catalog of books, as author Neate gives notes which help the reader assess a book's reliability and significance. An
