Rocks And Art Nature Found And More:

An Archaeology of Natural Places Richard Bradley, 2013-04-15 This volume explores why natural places such as caves mountains springs and rivers assumed a sacred character in European prehistory and how the evidence for this can be analysed in the field It shows how established research on votive deposits rock art and production sites can contribute to a more imaginative approach to the prehistoric landscape and can even shed light on the origins of monumental architecture The discussion is illustrated through a wide range of European examples and three extended case studies An Archaeology of Natural Places extends the range of landscape studies and makes the results of modern research accessible to a wider audience including students and academics field archaeologists and those working in heritage management **The**
