Rodin's Art The Iris And B Gerald Cantor Collection At Stanford University:

Rodin's Art the late Albert E. Elsen, Rosalyn Frankel Jamison, 2003-03-13 The late Albert Elsen was the first American scholar to study seriously the work of the French sculptor Auguste Rodin and the person most responsible for a revival of interest in the artist as a modern innovator after years during which the sculpture had been dismissed as so much Victorian bathos After a fortuitous meeting with the financier philanthropist and art collector B Gerald Cantor Elsen helped Cantor to build up a major collection of Rodin's work A large part of this collection consisting of more than 200 pieces was donated to the Stanford Museum by Mr Cantor who died recently In size it is surpassed only by the Musée Rodin in Paris and rivaled only by the collection in Philadelphia In scope the collection is unique in having been carefully selected to present a balanced view of Rodin's work throughout his life Rodin's Art encompasses a lifetime's thoughts on Rodin's career surveying the artist's accomplishments through the detailed discussion of each object in the collection It will begin with essays on the formation of the collection the reception of Rodin's work and his casting techniques The entries that follow are arranged topically and include extensive discussions of Rodin's major projects Rodin's Art Albert Edward Elsen, 2003 **Rodin : Iris & B. Gerald Cantor Center for Visual Arts at Stanford University**, Auguste Rodin, Albert Edward Elsen, Bernard Barryte, 2003 **Rodin : Sculpture from the Iris and B. Gerald Cantor Collection** Kirk Varnedoe, 2001 The work of the master French sculptor Auguste Rodin 1840-1917 is instantly recognizable throughout the world This is due in no small part to the proselytizing efforts of B Gerald Cantor 1916-1996 widely acknowledged as the preeminent collector and proponent of Rodin in America during the second half of the twentieth century He purchased his first piece a bronze of *The Hand of God* in 1946 after being profoundly moved by seeing a marble version of it at the Metropolitan Museum of Art New York For five decades Cantor focused all of his efforts on researching and acquiring works by Rodin Joined by his wife Iris in 1977 they built the largest and most comprehensive private collection of Rodin sculpture drawings prints photographs and memorabilia Of the approximately 750 works that the Cantors collected including casts of each of Rodin's major monuments *The Monument to Balzac* *The Gates of Hell* *The Burghers of Calais* and *The Monument to Victor Hugo* 450 have been given away to over 70 museums around the world Lavishly illustrated accompanying a worldwide touring exhibition *Rodin A Magnificent Obsession* chronicles the growth of the collection offering a comprehensive overview that includes works bequeathed to the Cantor Foundation from the Cantor personal collection as well as new insights into Rodin's working methods and the histories of his most famous masterpieces **Sculpture and the Museum** Christopher R. Marshall, 2017-07-05 *Sculpture and the Museum* is the first in depth examination of the varying roles and meanings assigned to sculpture in museums and galleries during the modern period from neo classical to contemporary art practice It considers a rich array of curatorial strategies and settings in order to examine the many reasons why sculpture has enjoyed a position of such considerable importance and complexity within the institutional framework of the museum and how changes to the museum have altered in turn the ways that we

perceive the sculpture within it In particular the contributors consider the complex issue of how best to display sculpture across different periods and according to varying curatorial philosophies Sculptors discussed include Canova Rodin Henry Moore Flaxman and contemporary artists such as Rebecca Horn Rachel Whiteread Mark Dion and Olafur Eliasson with a variety of museums in America Canada and Europe presented as case studies Underlying all of these discussions is a concern to chart the critical importance of the acquisition placement and display of sculpture in museums and to explore the importance of sculptures as a forum for the expression of programmatic statements of power prestige and the museum's own sense of itself in relation to its audiences and its broader institutional aspirations **Rodin** Claudine Mitchell, 2017-08-04

The expression the Zola of Sculpture was coined in the circles of the Royal Academy in the 1880s as a term of abuse Rodin The Zola of Sculpture reveals how the appraisal of Rodin in British culture was shaped by controversies around the literary models of Zola and Baudelaire in a period when negative notions about French culture were being progressively transformed into positive expressions of modern sculpture Embedded within this collaborative book is the editor's proposition that Rodin came to play an important role in the cultural politics of the Entente Cordiale at a critical juncture of European history Encompassing new scholarship in several disciplines drawn from both sides of the Channel Rodin The Zola of Sculpture offers the first in depth account of Rodin's career in Britain in the period 1880 1914 and weaves this historical trajectory into a complex investigation of the interactions between French and British cultures The authors examine the cultural agencies in which conceptions of Rodin's practice played a defining role dealing in turn with artists professional associations art criticism private and public collectors and the education of women sculptors **Rodin** Joan Vita Miller, Gary Marotta, 1986 **The Central Liberal Truth** Lawrence E. Harrison, 2008-07-08 Which cultural values beliefs and attitudes best promote democracy social justice and prosperity How can we use the forces that shape cultural change such as religion education and political leadership to promote these values in the Third World and for underachieving minorities in the First World In this book Lawrence E Harrison offers intriguing answers to these questions in a valuable follow up to his acclaimed Culture Matters Drawing on a three year research project that explored the cultural values of dozens of nations from Botswana Sweden and India to China Egypt and Chile Harrison offers a provocative look at values around the globe revealing how each nation's culture has propelled or retarded their political and economic progress The book presents 25 factors that operate very differently in cultures prone to progress and those that resist it including one's influence over destiny the importance attached to education the extent to which people identify with and trust others and the role of women in society Harrison pulls no punches and many of his findings are controversial Contradicting the arguments of multiculturalists this book contends that when it comes to promoting human progress some cultures are clearly more effective than others It convincingly shows which values beliefs and attitudes work and how we can foster them Harrison takes up the question that is at the center of politics today Can we self consciously change cultures so they encourage development and modernization
