Taiwanese Identity in the 21st Century Gunter Schubert, Jens Damm, 2012-01-30 As we look to enter the second decade of the 21st century Taiwan s quest for identity remains the most contentious issue in the domestic arena of Taiwanese politics From here it spills over into the cross Strait relationship and impacts on regional and global security Whether Taiwan is a nation state or whether Taiwan has any claim to be a nation state and how Taiwan should relate to China are issues which have long been hotly debated on the island although it seems that much of this debate is now more focused on finding an adequate strategy to deal with the Beijing government than on the legitimacy of Taiwan s claim to sovereignty as the Republic of China The collection of chapters in this book shed light on very different aspects of Taiwan s current state of identity formation from historical political social and economic perspectives both domestically and globally As such it will be invaluable reading for students and scholars of Taiwan studies politics history and society as well as those interested in cross Strait relations Chinese politics and Chinese international relations

Murray, 2005 This analysis of a troubling chapter in American anthropology reveals what happens when anthropologists fail to make fundamental ethnic and political distinctions in their work The authors examine how Taiwanese realities have been represented and misrepresented in American social science literature **Taiwanese Identity from Domestic, Regional and Global Perspectives** Jens Damm, Gunter Schubert, 2007

The tension between Taiwan s globalization and its ongoing identity formation is clearly visible in the economic political and societal spheres of the island republic Against this background the authors of this volume deal with the following questions To what extent has Taiwan become part of the Greater China region and in that sense a part of China How successful have Taiwan s endeavors been to escape China assert its own identity and communicate this to the international community How does Taiwanese identity connect to its integration within Greater China and beyond that is to its being part of a globalized transnational world The varied focus and range of the papers in this volume show that politically the result of the debate on Taiwan s national identity is undecided economically however Taiwan has become part of a Greater China region and cross Strait integration would thus seem to be inevitable
