behaviour focused approaches to family justice and giving a detailed account of the daily work of circuit and district judges and legal advisers The conclusion is that there is a trend across jurisdictions driven by technological innovation and by economic constraints to reduce the role of courts and lawyers in favour of individual choices based on private or government funded information sources While these developments can be beneficial they also have dangers and limitations The final chapter argues that despite the move to privatised forms of dispute resolution family justice still demands a sound judicial structure

Autonomy, Care and Family Law Anna Heenan, 2024-01-11 There is a tension at the heart of family law and policy between the increasing influence of individual autonomy and the demands of caring for children Individual autonomy envisages decisions made in one's own best interests whereas decisions around care are often made for the good of the family and may conflict with the caregiver's individual interests Whereas individual autonomy valorises economic self sufficiency caregiving responsibilities constrain choice and conflict with paid work This book explores this tension to consider how given changing social trends family law and policy should take account of caregiving responsibilities on parental separation Crucially it suggests that we need to rethink family law by placing care at its centre This book draws on original empirical data to explore the experiences of parents in England and Wales where the division of paid work and care is considered a choice and Sweden where parents are encouraged to work full time supported by wellfunded state childcare This comparative perspective sheds light on whether the clash between the ideas of autonomy and care could be reconciled in a more gender equal society The book argues that caregiving is hidden from and undervalued by law and policy in both jurisdictions underscoring the need for the proposed new approach The law needs to think more deeply about what it means to care and how the care provided by parents differs Anna Heenan outlines how family law might look different if the proposed framework based on placing care at the heart of family law is adopted

Quiet Revolutionaries Sharon Thompson, 2022-09-08 This book tells the untold story of the Married Women's Association Unlike more conventional histories of family law which focus on

legal actors it highlights the little known yet indispensable work of a dedicated group of life long activists Formed in 1938 the Married Women s Association took reform of family property law as its chief focus The name is deceptively innocuous suggesting tea parties and charity fundraisers but in fact the MWA was often involved in dramatic confrontations with politicians civil servants and Law Commissioners The Association boasted powerful public figures including MP Edith Summerskill authors Vera Brittain and Dora Russell and barrister Helena Normanton They campaigned on matters that are still being debated in family law today Quiet Revolutionaries sheds new light upon legal reform then and now by challenging longstanding assumptions showing that piecemeal legislation can be an effective stepping stone to comprehensive reform and highlighting how unsuccessful bills though often now forgotten can still be important triggers for change Drawing upon interviews with members friends and family and thousands of archival documents the book is compulsory reading for lawyers legal historians and anyone who wishes to explore histories of law reform from the ground up Winner of the SLSA Socio Legal Theory and History Book Prize 2023 To listen to podcast episodes about the Married Women s Association featuring interviews and archival research visit quietrevolutionaries.podbean.com *Family Law* Jonathan Herring,2012-12-06 This book provides a stimulating carefully planned introduction to the key issues and debates within family law from some of the leading authorities within their field It is designed both as a self standing book focusing on the key issues in the subject and as a supplement to more detailed textbooks on the subject It is essential reading for anybody studying or practising in the field of family law Each chapter is concerned with one of the main areas of family law such as adoption domestic violence marriage and divorce and covers a range of themes including the public private divide balancing the interests of family members moral values and family law cost and the legal system and the enforcement of family law The book reflects the interdisciplinary nature of the debates on family law and the difficult social and political issues which these have raised

obligations which underpin care and caring within families
