Managing Technological Development:

Managing Technological Development Hakan Hakansson, Alexandra Waluszewski, 2003-09-02 In this book the story of how IKEA and its paper producers struggled to solve the problem of creating environmentally friendly paper constitutes the foundation of a discussion of technological development Through a detailed analysis of the case study the authors demonstrate the necessity of including social technological and economical factors when dealing with such issues Focusing on the interactive aspects of commercial and technological development they examine how new solutions are developed and shaped in relation to the different companies and organizations involved They investigate resources in terms of how they are related and built into other resources through historical and contemporary interaction processes Their overall emphasis is on dealing with the issue of how different closely and distantly related companies and organizations are affected when resources are developed

Managing Technological Development Urs E. Gattiker, Laurie Larwood, 2019-07-22 No detailed description available for Managing Technological Development

Managing Technology Innovation Yunus Dauda, 2009 Technology in the world today has contributed to promote organisational competitiveness and national development But most developing countries have not substantially benefited from science and technology hence their underdevelopment and poverty They could not harness and manage their scientific and technological innovations and use their human and material resources to meet basic needs of their people reduce socio economic inequalities create employment opportunities and improve national security The achievement of these is considered in this book to be dependent on provisions of conducive environments for effective human resource management for scientific and technological innovations Human resource management concepts and practices were used to evolve frameworks and processes for the generation acquisition adoption and transfer of technology depending on the objectives of different countries and organisations

Managing Technology and Product Development Programmes Peter Flinn, 2019-02-08 An authoritative guide to new product development for early career engineers and engineering students Managing Technology and Product Development Programmes provides a clear framework and essential guide for understanding how research ideas and new technologies are developed into reliable products which can sold successfully in the private or business marketplace Drawing on the author s practical experience in a variety of engineering industries this important book fills a gap in the product development literature It links back into the engineering processes that drives the actual creation of products and represents the practical realisation of innovation Comprehensive in scope the book reviews all elements of new product development The topics discussed range from the economics of new product development the quality processes prototype development manufacturing processes determining customer needs value proposition and testing Whilst the book is designed with an emphasis on engineered products the principles can be applied to other fields as well This important resource Takes a holistic approach to new product development Links technology and product development to business needs Structures technology and product development

from the basic idea to the completed off the shelf product Explores the broad range of skills and the technical expertise needed when developing new products Details the various levels of new technologies and products and how to track where they are in the development cycle Written for engineers and students in engineering as well as a more experienced audience and for those funding technology development Managing Technology and Product Development Programmes offers a thorough understanding of the skills and information engineers need in order to successfully convert ideas and technologies into products that are fit for the marketplace **Managing Technological Innovation** Frederick Betz,2003-07-03
