Mozambique And Tanzania:

Mozambique and Tanzania Frances Moore Lappé, Adele Beccar-Varela, 1980 **Underdevelopment and the Transition to Socialism** James H. Mittelman, 2013-09-24 Underdevelopment and the Transition to Socialism Mozambique and Tanzania evaluates the promise and problems of socialism in the Third World by considering the political economies of Mozambique and Tanzania The aim is to provide a basic account for Marxists and non Marxists alike interested in alternative strategies of development in the Third World It offers a materialist political economy approach that should be useful to an interdisciplinary group of scholars and practitioners The book is organized into four parts Part I maps out purposes and procedures Part II on Mozambique is a factually grounded analysis of an initial conjuncture in the transition to socialism the capture of state power by workers and peasants Part III on Tanzania focuses on another vital step on the way to socialism the nationalization of leading financial institutions and the attempt to place them under the aegis of the immediate producers Part IV knits together the main strands of the foregoing analysis and ties them to the broad themes discussed at the beginning of this book Mozambique-Tanzania Relations Momade Rachide Abdul Gani, 1981 *Mozambique's Cabo Delgado Conflict* Marko Svicevic, Martha M. Bradley, 2024-04-02 This book uses a multidisciplinary approach to examine the ongoing conflict in Mozambique's Cabo Delgado province which has killed thousands and displaced a million people since 2017 The book investigates how the conflict developed the regional and international responses and its wider implications From a broad range of African perspectives the book addresses issues related to the conflict including international humanitarian law regional security and terrorism Part I assesses the regional security concerns of the conflict the success of cross border counter terrorism operations and their implications for the southern African region Part II focuses on the conflict in relation to international humanitarian law It discusses the Islamic State's presence in the region the trajectory and issues pertaining to sexual and gender based violence and the relationship between the conflict and the environment Finally Part III examines regional and continental responses to the conflict from the military intervention by the Southern African Development Community and Rwanda to the perceived inaction of the African Union The first comprehensive analysis of the conflict in Cabo Delgado this book will be of interest to scholars and practitioners of international humanitarian law security African politics war and conflict studies terrorism and human rights **Beyond Capitalism versus Socialism in Kenya and Tanzania** Joel D. Barkan, 1994 **Beyond Capitalism Vs. Socialism in Kenya and Tanzania** Joel D. Barkan, 1994 Explores how Tanzania and Kenya often regarded as paradigms of capitalist and socialist development in Africa have responded to the challenges they face such as population growth mounting external debt and structural adjustment by modifying their original approach to development **Milestones in Green Transition and Climate Compatible Development in Eastern and Southern Africa** Mukuna, Truphena E., Shisanya, Christopher A., 2016-07-25 It is widely recognised that climate change poses significant serious threats to sustained economic growth and agricultural development

poverty reduction food security and political stability globally Nowhere are these challenges more marked than in Africa where two thirds of all available land is classified either as desert or dry land in relation to which the Intergovernmental Panel on Climate Change IPCC 2013 has classified the continent as the most vulnerable to climate change variability This anthology is a product of a call from OSSREA to collate evidence based researches in a book in a bid to assess how far countries in eastern and southern Africa are implementing the UNFCCC Rio 20 Agenda 21 and other global and Africa wide decisions concerning the need to address climate change This will contribute to post 2015 development agenda for sustainable development goals SDGs in which climate change and disaster risk reduction will be priority areas of focus The book will serve as a valuable tool for experts advisers and policymakers in pursuing effective green growth policies and practices and achieving climate compatible development and in doing so inspire readers to choose a more sustainable pathway for humanity It will also help in looking at climate change as both a challenge and opportunity for development Further this book aims at stimulating more research in climate compatible development and climate financing which have put most countries at crossroads

Goldwyn, 2015-02-05 Sub Saharan Africa is on the verge of an energy boom New discoveries off the East and West coasts have raised hopes of significant revenues that can accelerate poverty reduction and enhance Africa's status as a destination for industrial investment The question that African governments citizens and international partners confront is whether this time will or can be different Can the harsh lessons offered by Africa's more established producers and the continent's previous energy booms be learned
