Services: Padmalatha Suresh, Justin Paul, Management of Banking and Financial Services focuses on the basic concepts of banking and financial services and how these concepts are applied in the global banking environment as well as in India In addition to presenting the big picture of the **Management Of Banking And Financial Services, 2/E** Suresh Padmalatha, 2011-09 The dynamic banking and financial services environment in the country calls for prudent decision making under pressure Management of Banking and Financial Services provides students and practitioners with a thorough understanding of managerial issues in the banking and financial services industry enabling them to evaluate the overall organisational impact of their decisions The first section of the book focuses on the basic concepts of banking and financial services and the other sections explain how these concepts are applied in the global banking environment as well as in India In addition to presenting the big picture of the banking and financial services industry the book also provides useful tips on the trade off between risk and return *Cases in the Environment of Business* David W. Conklin, 2006 The Ivey Casebooks Series is a co publishing partnership between SAGE Publications and the Richard Ivey School of Business at The University of Western Ontario Due to their popularity in more than 60 countries approximately 200 new cases are added to the Ivey School of Business library each year Each of the casebooks comes equipped with instructor s resources on CD ROM These affordable collections will not only help students connect to real world situations but will benefit corporations seeking continued education in the field as well Broadening the scope of environmental forces to a global rather than a domestic context leads to cross country comparisons that add complexity to the subject matter enrich analytical theories and heighten the interest of students Students gain an appreciation for the many ways in which environmental forces interact creating a set of risks and opportunities that is unique in each country and that must be evaluated in formulating trade and investment decisions Cases in the Environment of Business offers an outstanding collection of relevant classroom tested cases In discussing the cases students will participate in managerial decisions in an international context Most cases deal with a variety of environmental forces but generally a single set of forces plays a predominant role The instructor s resources on CD ROM includes detailed 6-10 page casenotes for each case preparation questions for students to review before class discussion questions and suggested further readings Cases in the Environment of Business addresses the following five sets of environmental forces Industry Structure Responses to strategies of customers suppliers and competitors dependence of profitability on unique value added attributes and the shift of certain activities to low wage countries Macroeconomic Variables Income levels and growth rates foreign exchange rates inflation rates interest rates and unemployment rates Political Variables Regulations financial incentives taxation foreign investment restrictions and international trade and investment agreements Societal Variables Labor and environmental practices ethics corporate social responsibility boards of directors and demographics Technological Variables Technological infrastructure and the pace and direction of technological changes including in particular the Internet and e business The IVEY Casebook Series Cases in Business Ethics Cases in

Entrepreneurship Cases in Gender Diversity in Organizations Cases in Operations Management Cases in Organizational Behavior Cases in the Environment of Business Cases in Alliance Management Mergers and Acquisitions Text and Cases

The Future of Banking Benton E. Gup, 2002-09-30 The basic functions of banking lending deposit taking and making payments are constant What changes are the forms banking takes in response to increases in competition globalizaion new laws and emerging technologies Among the most visible of these changes will be an increase in the consolidation and globalization of banking in the world s major trading countries Now prestigious academics and practitioners including regulators from around the world join Benton E Gup in exploring these coming changes and by doing so define a global perspective on banking s future They find that the consolidation of banking will persist on a global scale Electronic banking in all its forms will increase in importance and banking in mature economies will be even more different from what it is now in developing economies While focusing on the financial system in the United States Gup s panel of contributors also explores financial systems in Europe Asia and elsewhere Like Gup they predict that a small handful of very large banks will control a disproportionate share of bank assets Their views provide an unusual survey of current thinking in the domains of banking and finance and an important source of current information background and foresights for banking and finance practitioners students and academics
