Calhoun,Richard G. Tedeschi,2014-07-10

Posttraumatic growth is an area in which investigations are now being undertaken in many different parts of the world The view that individuals can be changed sometimes in radically good ways by their struggle with trauma is ancient and widespread However the systematic focus by scholars and clinicians on the possibilities for growth from the struggle with crisis is relatively recent There are now a growing number of studies and scholarly papers on the antecedents correlates and consequences of posttraumatic growth and there are also theoretical models that can help guide the research further It is clear however that this phenomenon is not yet well understood The Handbook of Posttraumatic Growth Research and Practice provides both clinicians and researchers with a comprehensive and up to date view of what has been done so far In addition it uses the foundations of what has been done to provide suggestions for the next useful steps to take in understanding posttraumatic growth The book offers contributions of important and influential scholars representing a wide array of perspectives of posttraumatic growth This volume serves as an impetus for additional work both in the academic aspects and in the possibilities for clinical applications of posttraumatic growth This Handbook will appeal to students practitioners and researchers working in a broad array of disciplines and human services     [The Science of Learning and Development](#) Pamela Cantor,David Osher,2021-06-21 This essential text unpacks major transformations in the study of learning and human development and provides evidence for how science can inform innovation in the design of settings policies practice and research to enhance the life path opportunity and prosperity of every child The ideas presented provide researchers and educators with a rationale for focusing on the specific pathways and developmental patterns that may lead a specific child with a specific family school and community to prosper in school and in life Expanding key published articles and expert commentary the book explores a profound evolution in thinking that integrates findings from psychology with biology through sociology education law and history with an emphasis on institutionalized inequities and disparate outcomes and how to address them It points toward possible solutions through an understanding of and addressing the dynamic relations between a child and the contexts within which he or she lives offering all researchers of human development and education a new way to understand and promote healthy development and learning for diverse specific youth regardless of

race socioeconomic status or history of adversity challenge or trauma The book brings together scholars and practitioners from the biological medical sciences the social and behavioral sciences educational science and fields of law and social and educational policy It provides an invaluable and unique resource for understanding the bases and status of the new science and presents a roadmap for progress that will frame progress for at least the next decade and perhaps beyond **The**
