**Written on the Body** Jane Caplan,2021-10-12 Despite the social sciences growing fascination with tattooing and the immense popularity of tattoos themselves the practice has not left much of a historical record And until very recently there was no good context for writing a serious history of tattooing in the West This collection exposes for the first time the richness of the tattoo s European and American history from antiquity to the present day In the process it rescues tattoos from their stereotypical and sensationalized association with criminality The tattoo has long hovered in a space between the cosmetic and the punitive Throughout its history the status of the tattoo has been complicated by its dual association with slavery and penal practices on the one hand and exotic or forbidden sexuality on the other The tattoo appears often as an involuntary stigma sometimes as a self imposed marker of identity and occasionally as a beautiful corporal decoration This volume analyzes the tattoo s fluctuating often uncomfortable position from multiple angles Individual chapters explore fascinating segments of its history from the metaphorical meanings of tattooing in Celtic society to the class related commodification of the body in Victorian Britain from tattooed entertainers in Germany to tattooing and piercing as self expression in the contemporary United States But they also accumulate to form an expansive textured view of permanent bodily modification in the West By combining empirical history powerful cultural analysis and a highly readable style this volume both draws on and propels the ongoing effort to write a meaningful cultural history of the body The contributors representing several disciplines have all conducted extensive original research into the Western tattoo Together they have produced an unrivalled account of its history They are in addition to the editor Clare Anderson Susan Benson James Bradley Ian Duffield Juliet Fleming Alan Govenar Harriet Guest Mark Gustafson C P Jones Charles MacQuarrie Hamish Maxwell Stewart Stephan Oettermann Jennipher A Rosecrans and Abby Schrader *Power and Resistance, 7th ed.* Jessica Antony,Wayne Antony,2022-06-30T00:00:00Z *Power and Resistance* debunks the dominant neoliberal hyper individualist approach to society s problems that sees poverty as a result of laziness environmental crises as a result of market demands for products that pollute and Indigenous Peoples struggles as a result of not assimilating We argue that it is social inequality and oppression that are the underlying causes of social problems In a society like ours powerful groups make choices that benefit them and force those choices onto others creating life problems for others and society as a whole The powerful also have influence over what is and is not called a social problem Solving social problems requires changing the structures of inequality and oppression For example industrial corporate agriculture has created huge profits for a few gigantic food corporations but left much of the world hungry But farmers and their allies are pushing back through agroecology an

agriculture based on local small scale ecologically sustainable farming that brings eaters and growers closer to one another  
The seventh edition of *Power and Resistance* includes new chapters on anti Black racism in schools Indigenous people and mental health food security and sovereignty and work in the gig economy     **Power and Resistance** Wayne

Antony,2020-05-06T00:00:00Z How do we make sense of the social problems that continue to plague Canadian society Our understanding of issues such as poverty racism violence homophobia crime and pollution stems from our view of how society is structured From the dominant neoliberal perspective social problems arise from individuals making poor choices From a critical perspective however these social troubles are caused by structural social inequalities Disparities in economic social and political power that is relations of power based on class race gender and sexual orientation are the central structural element of capitalist patriarchal colonialist societies The contributors to *Power and Resistance* use this critical perspective to explore Canadian social issues such as poverty colonialism homophobia violence against women climate change and so on This sixth edition adds chapters on the corporatization of higher education the lethal impacts of colonialism democracy the social determinants of health drug policy and sexual violence on campus     **Tattoo Sourcebook** ,2008     New York City  
Tattoo Michael McCabe,1997 New York City *Tattoo* documents the lively humorous and often violent history of the art from the early years of the 20th century in the words of the men who pushed the pins in places like Coney Island and the Bowery Tattooing at the time evoked the dangerous fringes of society and for over a decade Michael McCabe assiduously gained the confidence of the few surviving practitioners of this vanished era These highly charged interviews provide a privileged look into a clannish world of honor respect and jealously guarded trade secrets They reveal facets of New York social history and a volatile misunderstood and secretive art form
