Inspiration and Authority in the Middle Ages Brian

FitzGerald, 2017-10-06 *Inspiration and Authority in the Middle Ages* rethinks the role of prophecy in the Middle Ages by examining how professional theologians responded to new assertions of divine inspiration Drawing on fresh archival research and detailed study of unpublished manuscript sources from the twelfth to fourteenth centuries this volume argues that the task of defining prophetic authority became a crucial intellectual and cultural enterprise as university trained theologians confronted prophetic claims from lay mystics radical Franciscans and other unprecedented visionaries In the process these theologians redescribed their own activities as prophetic by locating inspiration not in special predictions or ecstatic visions but in natural forms of understanding and in the daily work of ecclesiastical teaching and ministry Instead of containing the spread of prophetic privilege however scholastic assessments of prophecy from Peter Lombard and Thomas Aquinas to Peter John Olivi and Nicholas Trevet opened space for claims of divine insight to proliferate beyond the control of theologians By the turn of the fourteenth century secular Italian humanists could lay claim to prophetic authority on the basis of their intellectual powers and literary practices From Hugh of St Victor to Albertino Mussato reflections on and debates over prophecy reveal medieval clerics scholars and reformers reshaping the contours of religious authority the boundaries of sanctity and sacred texts and the relationship of tradition to the new voices of the Late Middle Ages

Popular Opinion in the Middle Ages Charles W. Connell, 2016-10-24 This book provides a needed overview of the scholarship on medieval public culture and popular movements such as the Peace of God heresy and the crusades and illustrates how a changing sense of the populus the importance of publics and public opinion and public spheres was influential in the evolution of medieval cultures Public opinion did play an important role even in the Middle Ages it did not wait until the era of modern history to do so Using modern research on such aspects of culture as textual communities large and small publics cults crowds rumor malediction gossip dispute resolution and the European popular revolution the author focuses on the Peace of God movement the era of Church reform in the tenth and eleventh centuries the rise and combat of heresy the crusades and the works of fourteenth century political thinkers such as Marsiglio of Padua regarding the role of the populus as the basis for the analysis The pattern of changes reflected in this study argues that just as in the modern world the simplistic idea of the public was a phantom Instead there were publics large and small that were influential in shaping the cultures of the era under review

Women's Writing in Italy, 1400-1650 Virginia Cox, 2008-06-16 Winner 2009 Best Book Award Society for the Study of Early Modern Women Winner 2008 PROSE Award for Best Book in Language Literature and Linguistics Professional and Scholarly Publishing Division of the Association of American Publishers This is the first comprehensive study of the remarkably rich tradition of women's writing that flourished in Italy between the fifteenth and early seventeenth centuries Virginia Cox documents this tradition and both explains its character and scope and offers a new hypothesis on the reasons for its emergence and decline Cox combines fresh scholarship with a revisionist argument that overturns existing

historical paradigms for the chronology of early modern Italian women's writing and questions the historiographical commonplace that the tradition was brought to an end by the Counter Reformation Using a comparative analysis of women's activities as artists musicians composers and actresses Cox locates women's writing in its broader contexts and considers how gender reflects and reinvents conventional narratives of literary change

Art and the Augustinian Order in Early Renaissance Italy Anne Dunlop, 2016-12-05 The rise of the mendicant orders in the later Middle Ages coincided with rapid and dramatic shifts in the visual arts The mendicants were prolific patrons relying on artworks to instruct and impress their diverse lay congregations Churches and chapels were built and new images and iconographies developed to propagate mendicant cults But how should the two phenomena be related How much were these orders actively responsible for artistic change and how much did they simply benefit from it To explore these questions *Art and the Augustinian Order in Early Renaissance Italy* looks at art in the formative period of the Augustinian Hermits an order with a particularly difficult relation to art As a first detailed study of visual culture in the Augustinian order this book will be a basic resource making available previously inaccessible material discussing both well known and more neglected artworks and engaging with fundamental methodological questions for pre modern art and church history from the creation of religious iconographies to the role of gender in art

Building Regulations and Urban Form, 1200-1900 Terry R. Slater, Sandra M.G. Pinto, 2017-09-20 Towns are complicated places It is therefore not surprising that from the beginnings of urban development towns and town life have been regulated Whether the basis of regulation was imposed or agreed ultimately it was necessary to have a law based system to ensure that disagreements could be arbitrated upon and rules obeyed The literature on urban regulation is dispersed about a large number of academic specialisms However for the most part the interest in urban regulation is peripheral to some other core study and consequently there are few texts which bring these detailed studies together This book provides perspectives across the period between the high medieval and the end of the nineteenth century and across a geographical breadth of European countries from Scandinavia to the southern fringes of the Mediterranean and from Turkey to Portugal It also looks at the way in which urban regulation was transferred and adapted to the colonial empires of two of those nations
