Pattern Of Imperialism The United States Great Britain And The Late Industrializing World Since 1815:

The Pattern of Imperialism Tony Smith, 1981-10-30 The principal ambition of this book is to provide an avowedly eclectic although largely political explanation of American and British imperialism as comprehensive and ultimately as unified as that offered by Marxist interpretations Geopolitical considerations are assumed to be basic but not exclusive concerns of foreign policy elites in Britain and the United States and the ability of people in Latin America Africa and Asia to coordinate their activities that is to act politically is assumed to be the central but not sole feature determining the character of their response to Western imperialism The book provides profiles of various southern political regimes and categorises their different reactions to the impact of imperialism in the nineteenth century and to the impetus for decolonisation after 1945 The author concludes by considering the dilemma of American policy toward the Third World in the early 1980s when traditional modes of conduct can no longer prescribe a clear plan of action

Patterns of Empire Julian Go, 2011-09-30 Patterns of Empire comprehensively examines the two most powerful empires in modern history the United States and Britain Challenging the popular theory that the American empire is unique Patterns of Empire shows how the policies practices forms and historical dynamics of the American empire repeat those of the British leading up to the present climate of economic decline treacherous intervention in the Middle East and overextended imperial confidence A critical exercise in revisionist history and comparative social science this book also offers a challenging theory of empire that recognizes the agency of non Western peoples the impact of global fields and the limits of imperial power

The Pattern of Imperialism Tony Smith, 1981

American Foreign Relations Reconsidered Gordon Martel, 2002-11 Brings together 12 scholars of US foreign relations Each contributor provides a concise summary of an important theme in US affairs since the Spanish American War US policy process economic interests relations with the Third World and the nuclear arms race have been highlighted

Smashing the Liquor Machine Mark Lawrence Schrad, 2021 When most people think of the prohibition era they think of speakeasies gin runners and backwoods fundamentalists railing about the ills of strong drink In other words in the popular imagination it is a peculiarly American event Yet as Mark Lawrence Schrad shows in Smashing the Liquor Machine the conventional scholarship on prohibition is extremely misleading for a simple reason American prohibition was just one piece of a global wave of prohibition laws that occurred around the same time Schrad s counterintuitive global history of prohibition looks at the anti alcohol movement around the globe through the experiences of pro temperance leaders like Thomas Masaryk founder of Czechoslovakia Vladimir Lenin Leo Tolstoy and anti colonial activists in India Schrad argues that temperance wasn t American exceptionalism at all but rather one of the most broad based and successful transnational social movements of the modern era In fact Schrad offers a fundamental re appraisal of this colorful era to reveal that temperance forces frequently aligned with progressivism social justice liberal self determination democratic socialism labor rights women s rights and indigenous rights By placing the temperance movement in a deep global context he

forces us to fundamentally rethink all that we think we know about the movement Rather than a motley collection of puritanical American evangelicals the global temperance movement advocated communal self protection against the corrupt and predatory liquor machine that had become exceedingly rich off the misery and addictions of the poor around the world from the slums of South Asia to central Europe to the Indian reservations of the American west Unlike many traditional dry histories Smashing the Liquor Machine gives voice to minority and subaltern figures who resisted the global liquor industry and further highlights that the impulses that led to the temperance movement were far more progressive and variegated than American readers have been led to believe

Entangling Relations David A. Lake, 2020-07-21 Throughout what publisher Henry Luce dubbed the American century the United States has wrestled with two central questions Should it pursue its security unilaterally or in cooperation with others If the latter how can its interests be best protected against opportunism by untrustworthy partners In a major attempt to explain security relations from an institutionalist approach David A Lake shows how the answers to these questions have differed after World War I during the Cold War and today In the debate over whether to join the League of Nations the United States reaffirmed its historic policy of unilateralism After World War II however it broke decisively with tradition and embraced a new policy of cooperation with partners in Europe and Asia Today the United States is pursuing a new strategy of cooperation forming ad hoc coalitions and evincing an unprecedented willingness to shape but then work within the prevailing international consensus on the appropriate goals and means of foreign policy In interpreting these three defining moments of American foreign policy Lake draws on theories of relational contracting and poses a general theory of security relationships He arrays the variety of possible security relationships on a continuum from anarchy to hierarchy and explains actual relations as a function of three key variables the benefits from pooling security resources and efforts with others the expected costs of opportunistic behavior by partners and governance costs Lake systematically applies this theory to each of the defining moments of twentieth century American foreign policy and develops its broader implications for the study of international relations

Political Theory, International Relations, and the Ethics of Intervention Ian Forbes, Mark Hoffman, 2016-07-27 This volume is about the discourse and practice of intervention and non intervention in international relations The product of a dialogue between theorists of politics and international relations it argues that intervention is endemic in world politics but that we need to move beyond traditional accounts of such practices In moving towards a more encompassing approach it explores traditional and post modern perspectives on our understanding of sovereignty the state and the state system conceptions of power identity and agency and universal particularist and contingent justifications for intervention and non intervention

[A Companion to International History 1900 - 2001](#) Gordon Martel, 2010-03-29 A comprehensive overview of the most important international events movements and controversies of the 20th century Written by distinguished scholars each an authority in their field Explores influential underlying themes such as imperialism nationalism internationalism technological developments and

changes in diplomatic methods Addresses a broad range of topics including diplomacy of wartime and peacemaking the cold war era and the new world order the end of European empires the rise of nationalism in the Third World globalization and terrorism Chronological organization makes the volume easily accessible Includes useful guides for further reading and research

The Handbook of Media and Mass Communication Theory, 2 Volume Set Robert S. Fortner, P. Mark Fackler, 2014-05-05 The Handbook of Media and Mass Communication Theory presents a comprehensive collection of original essays that focus on all aspects of current and classic theories and practices relating to media and mass communication Focuses on all aspects of current and classic theories and practices relating to media and mass communication Includes essays from a variety of global contexts from Asia and the Middle East to the Americas Gives niche theories new life in several essays that use them to illuminate their application in specific contexts Features coverage of a wide variety of theoretical perspectives Pays close attention to the use of theory in understanding new communication contexts such as social media 2 Volumes

Murder and Intrigue on the Mexican Border John A. Adams, 2018-06-13 In early 1914 Clemente Vergara discovered several of his horses missing and reported the theft to local authorities The Webb County sheriff arranged for the South Texas rancher to meet with Mexican soldiers near Hidalgo to discuss compensation for his loss Vergara crossed the Rio Grande soon succumbed to a vicious physical assault and was jailed Days after incarceration in Hidalgo his body was found hanging from a tree The murder of Clemente Vergara contributed to events that put the United States and Mexico on the brink of war and opened the door for expanded American involvement in Mexico Texas governor Oscar B Colquitt seized upon the incident to challenge President Woodrow Wilson a fellow Democrat to intervene and even threatened retaliation by the Texas Rangers Meanwhile the White House played a larger strategic game with competing factions in the midst of the Mexican Revolution Wilson's apparent inaction heightened Colquitt's demands to guarantee the safety of Americans and their property in the Texas borderlands and the Vergara affair's extensive media coverage convinced many Americans that intervention in Mexico was necessary Author John A Adams Jr shows how an otherwise commonplace horse theft and murder revealed a tangled web of international relations powerful business interests and intrigue on both sides of the border Readers will be captivated by Murder and Intrigue on the Mexican Border and the continuing legacy that border events leave on Texas history

The Geopolitics of Super Power Colin S. Gray, 1988-01-01 Discusses the reasons for Soviet American antagonism looks at four alternative policies for U S security and stresses the importance of deemphasizing nuclear weapons

The Arab Writer in English Geoffrey Nash, 2014-11-19 Examines the English writings of four twentieth century Anglo Arab and Arab American writers

America's Mission Tony Smith, 2012-03-12 America's Mission argues that the global strength and prestige of democracy today are due in large part to America's impact on international affairs Tony Smith documents the extraordinary history of how American foreign policy has been used to try to promote democracy worldwide an effort that enjoyed its greatest triumphs in the occupations of Japan

and Germany but suffered huge setbacks in Latin America Vietnam and elsewhere With new chapters and a new introduction and epilogue this expanded edition also traces U S attempts to spread democracy more recently under presidents Clinton Bush and Obama and assesses America s role in the Arab Spring *Democracy, Revolution, and History* Theda Skocpol, 2018-10-18 The work of Barrington Moore Jr is one of the landmarks of modern social science A distinguished roster of contributors here discusses the influence of his best known work *Social Origins of Dictatorship and Democracy* Their individual perspectives combine in delineating Moore s contributions to the transformation of comparative and historical social science over the past several decades The essays in *Democracy Revolution and History* all address substantive and methodological problems asking questions about the different historical paths toward democratic or nondemocratic political outcomes Following Moore s example they use well researched comparative cases to make their arguments In the process they demonstrate how vital Moore s work remains to contemporary research in the social sciences This volume points as well to new frontiers of scholarship suggesting lines of work that build upon Moore s achievements [Encyclopedia of Religion in American Politics](#) Jeffrey Schultz, John G. West, Iain Maclean, 1998-12-14 Today such issues as abortion capital punishment sex education racism prayer in public schools and family values keep religion and politics closely entwined in American public life This encyclopedia is an A to Z listing of a broad range of topics related to religious issues and politics ranging from the religious freedom sought by the Pilgrims in the 1620s to the rise of the religious right in the 1980s *The International Politics of Eurasia: v. 9: The End of Empire? Comparative Perspectives on the Soviet Collapse* S. Frederick Starr, Karen Dawisha, 2016-09-16 First Published in 1997 This book is the ninth in a series of ten volumes produced by the Russian Littoral Project The project shares the conviction that the transformation of the former Soviet republics into independent states demands systematic analysis of the determinants of the domestic and foreign policies of the new countries The series of volumes is intended to provide a basis for comprehensive scholarly study of these issues This volume was shaped by the author s view that future scholarship about the post Soviet world requires both specialized research and broad gauge studies that carefully juxtapose the breakup of the Soviet empire with the transformation of other multinational empires **The Fate of Nations** Michael Mandelbaum, 1988-09-30 New interpretations of historic episodes in international relations result from a fresh analysis of national security policies and the demands and constraints imposed upon their development by the international system **A Pact with the Devil** Tony Smith, 2012-09-10 Despite the overwhelming opposition on the left to the war in Iraq many prominent liberals supported the war on humanitarian grounds They argued that the war would rid the world of a brutal dictator and liberate the Iraqi people from totalitarian oppression paving the way for a democratic transformation of the country In *A Pact with the Devil* Tony Smith deftly traces this undeniable drift in mainstream liberal thinking toward a more militant posture in world affairs with respect to human rights and democracy promotion Beginning with the Wilsonian quest to make the world safe for democracy right up to the present day liberal support for regime change

Smith isolates leading strands of liberal internationalist thinking in order to see how the liberal hawks constructed them into a case for American and liberal imperialism in the Middle East. The result is a reflection on an important aspect of the intellectual history of American foreign policy, establishing how a sophisticated group of thinkers came to fashion their recommendations to Washington and working to see what role liberalism may still play in deliberations in the country on its role in world events now that the failure of these ambitions in Iraq seems clear.

The End of Empire? Karen Dawisha, Bruce Parrott, 1997. First Published in 1997. Routledge is an imprint of Taylor Francis, an Informa company. **Rebel Power** Peter Krause, 2017-05-09. Many of the world's states from Algeria to Ireland to the United States are the result of robust national movements that achieved independence. Many other national movements have failed in their attempts to achieve statehood, including the Basques, the Kurds, and the Palestinians. In **Rebel Power**, Peter Krause offers a powerful new theory to explain this variation, focusing on the internal balance of power among nationalist groups who cooperate with each other to establish a new state while simultaneously competing to lead it. The most powerful groups push to achieve states while they are in position to rule them, whereas weaker groups, unlikely to gain the spoils of office, are likely to become spoilers, employing risky escalatory violence to forestall victory while they improve their position in the movement hierarchy. Hegemonic movements with one dominant group are therefore more likely to achieve statehood than internally competitive, fragmented movements due to their greater pursuit of victory and lesser use of counterproductive violence. Krause conducted years of fieldwork in government and nationalist group archives in the Middle East, North Africa, and Europe, as well as more than 150 interviews with participants in the Palestinian, Zionist, Algerian, and Irish national movements. This research generated comparative longitudinal analyses of these four national movements, involving 40 groups in 44 campaigns over a combined 140 years of struggle. Krause identifies new turning points in the history of these movements and provides fresh explanations for their use of violent and nonviolent strategies, as well as their numerous successes and failures. **Rebel Power** is essential reading for understanding not only the history of national movements but also the causes and consequences of contentious collective action today, from the Arab Spring to the civil wars and insurgencies in Syria, Afghanistan, Iraq, and beyond.

Unveiling the Energy of Verbal Beauty: An Mental Sojourn through **Pattern Of Imperialism The United States Great Britain And The Late Industrializing World Since 1815**

In a world inundated with displays and the cacophony of fast communication, the profound energy and mental resonance of verbal artistry often fade into obscurity, eclipsed by the regular onslaught of noise and distractions.
