On behalf of the organizing committee we would like to welcome you to Darmstadt and DAGM 2010 the 32 Annual Symposium of the German Association for Pattern Recognition The technical program covered all aspects of pattern recognition and to name only a few areas ranged from 3D reconstruction to object recognition and medical applications The result is reflected in these proceedings which contain the papers presented at DAGM 2010 Our call for papers resulted in 134 submissions from institutions in 21 countries Each paper underwent a rigorous reviewing process and was assigned to at least three program committee members for review The reviewing phase was followed by a discussion phase among the respective program committee members in order to suggest papers for acceptance The final decision was taken during a program committee meeting held in Darmstadt based on all reviews the discussion results and if necessary additional reviewing Based on this rigorous process we selected a total of 57 papers corresponding to an acceptance rate of below 45% Out of all accepted papers 24 were chosen for oral and 33 for poster presentation All accepted papers have been published in these proceedings and given the same number of pages We would like to thank all members of the program committee as well as the external reviewers for their valuable and highly appreciated contribution to the community **Pattern**
