Riley,Krista E. Van Vleet,2012 This volume examines adoption as a way of understanding the practices and ideology of kinship and family more generally Adoption allows a window onto discussions of what constitute family or kin the role of biological connectedness oversight of parenting practices by the state and the role of race gender sexuality and socio economic class in the building of families The book focuses primarily on adoption practices in the US but will also use examples of adoption and fostering across cultures to put those American adoption practices into a comparative context While reviewing practices of and issues surrounding adoption the authors highlight the ways these practices and discussions allow us greater insight into overall practices of kinship and family *The Regional Economics of Technological Transformations* Roberta Capello,Camilla Lenzi,2021-08-30 The Regional Economics of Technological Transformations provides a comprehensive overview of 40 technological transformations in Europe and their socio economic impact with a particular emphasis on the regional dimension of the phenomena The authors employ extensive original data and robust quantitative methods to analyse technological change in all regions of the 27 EU countries plus the UK and shed light on this

trend for Europe and beyond Structured in four parts the book first looks at conceptual definitions empirical measurements and expected impacts on both the economic performance GDP and productivity growth and the labour market and then moves on to analyse where 4 0 technological transformation actually takes place in Europe and the reasons for this Next it offers original empirical evidence on the impacts of the different transformations and of their intertwined effects on both the economy and the society Finally the book explores the policy implications of this technological transformation This book will be valuable reading for advanced students researchers and policymakers working across regional economics industrial economics and innovation policy It will be of primary interest to regional scientists interested in the field who may enjoy the conceptual and empirical solutions to the study of a very complex timely and still largely unexplored theme Sociologists engineers and political economists can benefit from the book s analysis noting the urgency of the development of new ethical rules governing the new digital and labour markets Finally the book may appeal to policymakers interested in opportunities to increase regional competitiveness and sustainability goals through the advent of 4 0 technologies

Prospective Studies of Crime and Delinquency K.T. van Dusen, Sarnoff A. Mednick, 2012-12-06 Katherine Teilmann Van Dusen and Sarnoff A Mednick This introduction delineates what we consider to be three of the most important impediments to the advance of knowledge in the field of criminology The most fundamental need is for more studies of the nature and progress of criminal and delinquent careers The second need is for more prospective longitudinal studies of the etiology of crime and delinquency The third need concerns the lack of interdisciplinary research toward a more integrated understanding of delinquent and criminal behavior Criminal and Delinquent Careers The birth cohort study by Wolfgang Figlio and Sellin 1972 was heralded by many Farrington 1973 Erickson 1973 Weis 1974 as a landmark which allowed researchers to study the course of delinquency without the usual sampling biases that plagued other cross sectional research For the first time we could get a reasonable picture of when delinquency usually starts what proportion of the population engages in delinquency what types of delinquencies they engage in what proportion continue and so on Cross sectional studies do not permit the investigation of careers because cross 1 PROSPECTIVE STUDIES OF CRIME AND DELINQUENCY 2 sectional sampling includes only portions of careers for many of the individuals sampled This is just one of the many problems that restricted researchers ability to study the nature of criminal careers
