Patterns of Soviet Thought Richard T. De George,1970 **USSR: Strategic Survey** United States. Department of the Army,1969 **Research Report R.** ,1981 **External Research List** ,1967 **Dialectical Materialism** Zedong Mao,Nick Knight,2016-09-16 New and annotated translations of philosophical essays written by Mao Zedong in 1937 which have come to be regarded as a cornerstone in the development of Chinese Marxism The editor analyzes their textual philosophical and historical significance **External Research. ER List** United States. Department of State. External Research Division,1967 *Patterns of Soviet Thought; the Origins and Development of Dialectical and Historical Materialism [by] Richard T. DeGeorge* Richard T. De George,1970 **Patterns of Conventional Warfighting under the Nuclear Umbrella** Igor Davidzon,2020-05-04 This book explores how nuclear weapons influence conventional warfighting through three case studies of countries not party to the Non Proliferation Treaty Pakistan India and Israel The author examines how decision makers choose a preferred pattern of war management as well as how these choices affect conflicts suggesting that nuclear weaponization constitutes a clear change in the relative power of countries This distribution of power within the international system expands or reduces the selection of strategies or war management patterns available to members of the international community However historic traumatic events like military defeats countries self images and images of enemies form the perceptions of decision makers regarding material power and change thereof suggesting that choices of decision makers are not affected directly by changes in relative power relations but rather through an intermediate level of strategic culture parameter **Mao Tse-Tung's Theory of Dialectic** F.Y.K. Soo,2012-12-06 The year 1979 ushered in a new phase in China s long and continuous revolution Currently this new phase is being symbolically referred to by the Chinese leaders themselves as the New Long March a continuation of the legendary and historical Long March in terms of modernization which comprises the Four Modernizations Agriculture Industry Science and Technology and Military Defense Such an all encompassing attempt at modernization may appear to some at least to be something new or may indicate a radical shift in her policy But upon closer examination this decision seems only to reflect an historical continuity in terms of the two major long term goals of the Chinese Revolution national independence and modernization or industrialization The former would make China strong the latter wealthy For ever since the Opium War in 1840 and throughout the Revolutions of 1911 and 1949 China has always pursued these two revolutionary goals though with different emphases at different times This has been especially true during the past three decades as this twofold goal has dictated all of China s important policies both domestic and foreign In other words while the concrete policies may have appeared to be lacking in unity at times they have been formulated with the specific intent of achieving national independence and modernization From this perspective the New Long March marks the passage of post Mao China beyond the transition of succession toward the continued pursuit of the same revolutionary goals **Problems of Communism** ,1968

Kuleshov on Film Lev Kuleshov, 2024-07-26 Lev Kuleshov 1899 1970 was the first aesthetic theorist of the cinema An outstanding figure in the montage school he was a key influence on Eisenstein and Pudovkin Kuleshov was the first to see clearly that montage the assemblage and alternation of shots was the very essence and structure of cinematic expression often overriding the significance of the content of the shots themselves Deriving his insights from close study of American films particularly D W Griffith s Kuleshov used his experience in prerevolutionary Russian films and his wartime efforts in Soviet documentaries to conduct experiments in film acting and montage He developed an editing method later referred to as the Kuleshov effect that juxtaposed shots to evoke new meanings from the combinations In one experiment he intercut identical shots of an actor s neutral face with shots of a bowl of soup a child in a coffin and a sunny landscape to evoke different emotional responses from the audience Kuleshov also synthesized a nonexistent woman from close ups of different parts of several women and created artificial landscapes by intercutting shots of locations separated by great distances Kuleshov taught at the Soviet film school and was a well known director of features and Kuleshov on Film contains essays on both the theoretical and practical sides of filmmaking Influenced by Futurism

Russian Formalism and structural linguistics Kuleshov's analysis can now be seen as semiotic presaging studies of film as a system of signs As a Marxist and structuralist Kuleshov examined form and content with a materialist approach The translator's extensive introduction discusses Kuleshov's use of signs type and other structuralist concepts and places him in the development of semiotic thought It also provides intriguing biographical detail on Kuleshov's conflicts with advocates of socialist realism who attempted to stamp out the artistic and theoretical innovations of the early revolutionary years and establishes Kuleshov's position as one of the great figures in the evolution of film Kuleshov on Film is essential reading for everyone seriously concerned with the cinema This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1974
