

Taniko

Tāniko is a traditional style of weaving. Tāniko patterns are often woven around the borders of traditional korowai, and tells Māori stories, histories and values of te ao Māori.

Mangopare

The word mangopare means hammerhead shark and symbolises strength, leadership, courage and tenacity.

Kaokao

The kaokao pattern means protection. It looks like a repetitive 'M' shape which is said to represent the rib cage and arms of warriors (think of the Haka stance).

The kaokao pattern is usually on tukutuku panels in the four corners of a whare representing the protection of all.

Māori patterns and meanings

Niho Taniwha

Niho taniwha translates to taniwha teeth. The triangle shape of the niho taniwha represents strength and stability. The repetitive pattern symbolises whakapapa, stories, histories and myths passed down over time.

Poutama

The poutama is a common pattern used throughout Māori weaving and artwork. It means stairs, and symbolises whakapapa or genealogy, and also the pursuit of knowledge, advancement and growth.

Patiki

The pātiki or pātikitiki is usually represented as a repetitive diamond pattern. Pātiki is the word for flounder, and symbolises abundance, hospitality and providing for your people.

Koru

The koru symbolises nature, new life, growth, and strength as it resembles an unfurling fern frond. It is probably the most widely recognised Māori design, and feature in a lot of Māori design such as kōwhiriwhai.

Patterns In Meaning:

Patterns and Meanings Alan Partington, 1998-01-01 Patterns and Meanings consists of case studies which make use of corpora and concordance technology Each case study elaborates a problem area makes reference to both the descriptive and applied literature thus far and then suggests ways of exploiting corpus data to shed light on the problem Language phenomena investigated include word sense phraseology and syntax metaphor and creative use text reference idiom and translation Emphasis is given to information that usually cannot be found in dictionaries grammars language textbooks or other resources but which the study of corpus data makes available This work is particularly important not only for its language description insights but also for pedagogical application Further useful suggestions are included on setting up a medium sized corpus on a personal computer

Patterns and Meanings of Intensifiers in Chinese Learner Corpora Chunyan Wang, 2016-12-01 Intensification plays a major role in spoken and written interaction enabling the writer or speaker to express different levels of commitment This book explores the patterns and meanings of intensifiers in Chinese learner English by ways of comparison with native English The study is conducted within the theoretical framework of Firthian contextual theory of meaning Sinclairian model of Extended Units of Meaning EUM and Hunston's pattern grammar The method of contrastive inter language analysis CIA is adopted and the intensifier collocations in learner English and native English are explored by means of quantitative and qualitative analyses of corpora data This book is the first attempt to investigate the patterning and meaning features of intensifiers systematically with the corpora data in Chinese learner English Readers will obtain a relatively complete picture of how Chinese learners use intensifiers to realize their attitudinal meanings

Semitic Noun Patterns Joshua Fox, 2018-08-14 This is the first complete study of Semitic internal noun patterns since that of Jacob Barth over a century ago Drawing on the earlier work of Semitists and linguists this work presents a comprehensive new synthesis This diachronic comparative study presents the internal patterns individually and organizes them systematically This study investigates the special role of noun patterns in isolated nouns and gives a complete list of reconstructible isolated nouns This diachronic comparative study presents the internal patterns individually and organizes them systematically The roles of the patterns in the derivation of nouns from roots and in nominal inflection are shown as part of a reconstructed system This study investigates the special role of noun patterns in isolated nouns and gives a complete list of reconstructible isolated nouns The heart of the book is devoted to studies of all individual reconstructible internal patterns with their Semitic reflexes including mono and bisyllabics and patterns with ungeminated or geminated second or third consonants The book reaches conclusions on the structure of the Proto Semitic pattern system including categories of reconstructible and non reconstructible patterns semantic groups of patterns and relationships between different patterns Further patterns merge and split diachronically appearing in different roles in the attested languages where new pattern systems are formed

Verb Valency Patterns Susen Faulhaber, 2011 Based on an empirical study of

English verbs the author discusses to what extent complementation is predictable from meaning by examining whether semantically similar verbs also exhibit the same syntactic properties The significant number of idiosyncrasies presented rigorously challenge approaches that assume meaning to be the determining force in complementation **Grammar and Vocabulary** Howard Jackson,2002 This title covers the core areas of grammar and vocabulary such as words and sentences word structure sentence patterns clause and phrase grammar rules and vocabularies **Pattern Grammar** Susan Hunston,Gill Francis,2000 This text s definition of lexis and grammar is based on the concept of phraseology and of language patterning arising from work on large corpora It describes the research that led to the publication of the Collins Cobuild English Dictionary 1995 and challenges existing linguistic theory **Productive Patterns in Phraseology and Construction Grammar** Carmen Mellado Blanco,2021-11-22 Adopting a corpus based methodology this volume analyses phraseological patterns in nine European languages from a monolingual bilingual and multilingual point of view following a mostly Construction Grammar approach At present corpus based constructional research represents an interesting and innovative field of phraseology with great relevance to translatology foreign language didactics and lexicography

Structure, Content and Meaning of Organizational Networks Peter Groenewegen,Julie E. Ferguson,Christine Moser,John Mohr,Stephen P. Borgatti,2017-10-12 This volume explores recent advances in network research strengthening theorizing on social structures and meaning in and between organizational networks The volume will interest researchers seeking to explain organizational phenomena through the analysis of communications and information from archival secondary electronic sources **Patterns in Language and Linguistics** Beatrix Busse,Ruth Moehlig-Falke,2019-12-16 Despite its importance for language and cognition the theoretical concept of pattern has received little attention in linguistics so far The articles in this volume demonstrate the multifariousness of linguistic patterns in lexicology corpus linguistics sociolinguistics text linguistics pragmatics construction grammar phonology and language acquisition and develop new perspectives on pattern as a linguistic concept The Margins of Meaning Robin Melrose,2022-07-11 The title of this book is inspired by Jacques Derrida and by his seminal work *The Margins of Philosophy* The study of meaning in the past thirty years has focused on core meaning and largely ignored the margins of meaning where much of the power of language is to be found The present work seeks to shift this focus by taking a postmodern approach that sees meaning as an accretion of verbal social cultural and personal sign systems with fluid boundaries that shrink or expand with each meaning Chapter 1 begins with a brief examination of present day approaches to meaning and goes on to a deconstruction of four twentieth century linguists Chapter 2 takes as its starting point two aspects of the 20th century scientific paradigm non deterministic causation and relativity and considers a number of thinkers who have worked within this paradigm A major aim of this work is to convince students and teachers of literary theory cultural studies and feminist theory of the validity of a linguistics of indeterminacy so Chapter 3 focuses on an analytical approach that models indeterminacy in language and Chapter 4 applies

the model to a newspaper editorial a Wallace Stevens poem and an extract from a Patrick White novel **Work Meaning Patterns in Early Career** Rita Claes,1993 **Corpus Stylistics in Heart of Darkness and its Italian Translations**

Lorenzo Mastropierro,2017-11-16 This book explores the interaction between corpus stylistics and translation studies It shows how corpus methods can be used to compare literary texts to their translations through the analysis of Joseph Conrad's Heart of Darkness and four of its Italian translations The comparison focuses on stylistic features related to the major themes of Heart of Darkness By combining quantitative and qualitative techniques Mastropierro discusses how alterations to the original's stylistic features can affect the interpretation of the themes in translation The discussion illuminates the manipulative effects that translating can have on the reception of a text showing how textual alterations can trigger different readings This book advances the multidisciplinary dialogue between corpus linguistics and translation studies and is a valuable resource for students and researchers interested in the application of corpus approaches to stylistics and translation

Contrastive Corpus Linguistics Anna Cermakova,Hilde Hasselgård,Markéta Malá,Denisa Šebestová,2024-05-02 Marking 30 years of contrastive corpus linguistics this volume provides a state of the art of the field charting its development over time and expanding the boundaries of the discipline Focusing on a diversity of methods and approaches to language comparison it uses both comparable and translation corpora and explores a broad range of language registers from newspaper reporting and spoken political discourse to film scripts and football match reports Using English as the pivot language for each chapter the volume offers contrastive bilingual and trilingual perspectives on a number of languages including Czech Finnish French German Norwegian Spanish and Swedish covering a typologically diverse field By exploring the application of complex multi genre multilingual data sets and expanding the horizons of contrastive studies it demonstrates how a juxtaposition of cross linguistic and register variation can deepen our insight into language variation and use The volume is dedicated to two prominent contrastive corpus linguists Karin Aijmer and Bengt Altenberg who have decisively shaped the discipline from its very beginnings The book opens with a chapter by Aijmer reflecting on the current breadth and future prospects of research in the area while pointing to emergent trends with an insight that only she can offer

 Kikumi K. Tatsuoka, 2009-05-22 This book introduces a new methodology for the analysis of test results Free from ambiguous
 interpretations the results truly demonstrate an individual's progress The methodology is ideal for highlighting patterns
 derived from test scores used in evaluating progress Dr Tatsuoka introduces readers to the Rule Space Method RSM a
 technique that transforms unobservable knowledge and skill variables into observable and measurable attributes RSM
 converts item response patterns into attribute mastery probabilities RSM is the only up to date methodology that can handle
 large scale assessment for tests such as the SAT and PSAT PSAT used the results from this methodology to create cognitively
 diagnostic scoring reports In this capacity RSM helps teachers understand what scores mean by helping them ascertain an
 individual's cognitive strengths and weaknesses For example two students may have the exact same score but for different
 reasons One student might excel at processing grammatically complex texts but miss the main idea of the prose while
 another excels at understanding the global message Such knowledge helps teachers customize a student's education to his or

her cognitive abilities RSM is also used for medical diagnoses genetics research and to help classify music into various states of emotions for treating mental problems The book opens with an overview of cognitive assessment research and nonparametric and parametric person fit statistics The Q matrix theory is then introduced followed by the Rule Space method Various properties of attribute mastery probabilities are then introduced along with the reliability theory of attributes and its connection to classical and item response theory The book concludes with a discussion of how the construct validity of a test can be clarified with the Rule Space method Intended for researchers and graduate students in quantitative educational and cognitive psychology this book also appeals to those in computer science neuroscience medicine and mathematics The book is appropriate for advanced courses on cognometrics latent class structures and advanced psychometrics as well as statistical pattern recognition and classification courses taught in statistics and or math departments **Software**
