Patterns Of Episcopal Leadership:

Patterns of Episcopal Leadership Gerald P. Fogarty, 1989 **Patterns of Parish Leadership** Dean R. Hoge, Jackson W. Carroll, Francis K. Scheets, 1988 *Patterns of Parish Leadership* is a call to leadership on the part of all those who care for the future of ministry and missions *Power and Rhetoric in the Ecclesiastical Correspondence of Constantine the Great* Andrew J. Pottenger, 2022-11-30 This volume closely examines patterns of rhetoric in surviving correspondence by the Roman emperor Constantine on conflicts among Christians that occurred during his reign primarily the Donatist schism and Arian controversy Commonly remembered as the first Christian emperor of the Roman Empire Constantine's rule sealed a momentous alliance between church and state for more than a millennium His well known involvement with Christianity led him to engage with two major disputes that divided his Christian subjects the Donatist schism centred from the emperor's perspective on determining the rightful bishop of Carthage and the so called Arian controversy a theological conflict about the proper understanding of the Son's divine nature in relation to that of the Father This book examines a number of letters associated with Constantine that directly address both of these disagreements exploring his point of view and motivations to better understand how and why this emperor applied his power to internal church divisions Based on a close analysis of prominent themes and their functions in the rhetoric of his correspondence Pottenger argues that three doctrines of power served to inform and direct Constantine's use of power as he engaged with these problems of schism and heresy *Power and Rhetoric in the Ecclesiastical Correspondence of Constantine the Great* is of interest to students and scholars of early Christianity and the history of the later Roman Empire *Communication Patterns and Communality Among Congregational Leaders* William John Sadler, 1970 **Religious Human Rights in Global Perspective** John Witte, Johan David Van der Vyver, 1996-02-09 **The Pattern of Christian Truth** H. E. W. Turner, 2004-10-29 Walter Bauer's *Orthodoxy and Heresy in Earliest Christianity* created a stir with its argument that the teachings later condemned as heresy in the later second century onward were in fact dominant in the earliest decades of the church This full scale response by H E W Turner has not enjoyed the attention it deserves Turner's volume represents a learned and sophisticated restatement of the traditional view what became official orthodoxy was taught early on by the majority of church teachers albeit not in fully developed form *Social-Scientific Approaches to New Testament Interpretation* David G. Horrell, 1999-01-01 In the past twenty five years New Testament scholars have drawn on the social sciences especially anthropology and sociology to develop a variety of new perspectives on early Christianity David Horrell here gathers together the classic works in this field including essays by for example John Barclay Philip Esler Wayne Meeks Luise Schottroff and Gerd Theissen For each selection David Horrell provides a short introduction and suggestions for further reading He also provides an introduction outlining the development and future prospects of the discipline An excellent reference and textbook for scholars and students *Religious Human Rights in Global Perspective* John Witte Jr., Johan D. van der Vyver, 2023-12-11 In this Dickensian century of human rights the

world has cultivated the best of religious rights protections but witnessed the worst of religious rights abuses In this volume Jimmy Carter John T Noonan Jr and a score of leading jurists assess critically and comparatively the religious rights laws and practices of the international community and of selected states in the Atlantic continents This volume and its companion Religious Human Rights in Global Perspective Religious Perspectives are products of an ongoing project on religion human rights and democracy undertaken by the Law and Religion Program at Emory University *Patterns of Ministry among the First Christians* Kevin Giles,2017-07-14 This new edition of Patterns of Ministry Among the First Christians tells the story of how the first Christian leaders emerged and with the passing of time developed The book includes sections on Jesus and Paul and their understanding of Christian leadership on bishops deacons elders apostles prophets and teachers and on ordination The focus is primarily on the first century but historical development is noted The author also discusses the ways the New Testament may speak to the present **An Archbishop for the People** Richard Gribble,2006 The definitive biography of San Francisco's celebrated archbishop Edward J Hanna who was Archbishop of the Bay from 1912 1935 replete with photos bibliography index and endnotes *Red Pope* Vefie Poels,2023-11-15 Arriving in Rome from the Netherlands in 1895 the Catholic priest and Redemptorist Willem van Rossum 1854 1932 rose quickly through the ranks of the curia In many ways an outsider he made a resounding success of his career His zeal in the fight against the virus of modernism earned him a cardinal's hat in 1911 and he was appointed prefect of the Congregation of Propaganda Fide in 1918 As red pope or head of the Vatican's mission department Van Rossum led a hard fought and ultimately successful campaign to separate missionary policy fundraising and staffing from Western nationalism and concentrate control over the worldwide missionary project at supranational level in Rome He was the driving force behind two programmatic documents on the missions by Popes Benedict XV and Pius XI which promoted the building up of indigenous churches and the educating of native clergy thus helping to create a favourable position for the Catholic church during the subsequent wave of decolonisation In the meantime Van Rossum continued to decry Italian dominance in the church as well as the curia's inefficiencies for instance in a vituperative pamphlet that he wrote shortly before his death This scholarly biography of Willem van Rossum rescues this great strategist behind the popes of the missions from oblivion and throws fascinating light on the history of the Catholic church and the Roman curia from the late nineteenth century until far into the twentieth Doctrine and Power Carlos R. Galvao-Sobrinho,2021-03-16 During the fourth century a theological controversy divided Christian communities throughout the Eastern half of the Roman Empire At stake was not only the truth about God but also the authority of church leaders whose legitimacy depended on their claims to represent that truth In this book Carlos R Galvao Sobrinho argues that out of these disputes was born a new style of church leadership one in which the power of the episcopal office was greatly increased He shows how these disputes compelled church leaders repeatedly to assert their orthodoxy and legitimacy tasks that required them to mobilize their congregations and engage in action that continuously projected their power in the public

arena These developments were largely the work of prelates of the first half of the fourth century but the style of command they inaugurated became the basis for a dynamic model of ecclesiastical leadership found throughout late antiquity

Renouncing the World Yet Leading the Church Andrea Sterk, 2009-06-30 Although an ascetic ideal of leadership had both classical and biblical roots it found particularly fertile soil in the monastic fervor of the fourth through sixth centuries Church officials were increasingly recruited from monastic communities and the monk bishop became the dominant model of ecclesiastical leadership in the Eastern Roman Empire and Byzantium In an interesting paradox Andrea Sterk explains that from the world rejecting monasteries and desert hermitages of the east came many of the most powerful leaders in the church and civil society as a whole Sterk explores the social political intellectual and theological grounding for this development Focusing on four foundational figures Basil of Caesarea Gregory of Nyssa Gregory of Nazianzus and John Chrysostom she traces the emergence of a new ideal of ecclesiastical leadership the merging of ascetic and episcopal authority embodied in the monk bishop She also studies church histories legislation and popular ascetic and hagiographical literature to show how the ideal spread and why it eventually triumphed The image of a monastic bishop became the convention in the Christian east Renouncing the World Yet Leading the Church brings new understanding of asceticism leadership and the church in late antiquity Table of Contents Introduction I Basil of Caesarea and the Emergence of an Ideal 1 Monks and Bishops in the Christian East from 325 to 375 2 Asceticism and Leadership in the Thought of Basil of Caesarea 3 Reframing and Reforming the Episcopate Basil s Direct Influence II The Development of an Ideal 4 Gregory of Nyssa On Basil Moses and Episcopal Office 5 Gregory of Nazianzus Ascetic Life and Episcopal Office in Tension 6 John Chrysostom The Model Monk Bishop in Spite of Himself III The Triumph of an Ideal 7 From Nuisances to Episcopal Ideals Civil and Ecclesiastical Legislation 8 Normalizing the Model The Fifth Century Church Histories 9 The Broadening Appeal Monastic and Hagiographical Literature Epilogue The Legacy of the Monk Bishop in the Byzantine World Abbreviations Notes Frequently Cited Works Index Records of the American Catholic Historical Society of Philadelphia ,1988 *Modern Catholic Social Teaching* Kenneth R. Himes, 2018-01-02 Including contributions from twenty two leading moral theologians this volume is the most thorough assessment of modern Roman Catholic social teaching available In addition to interrogations of the major documents it provides insight into the biblical and philosophical foundations of Catholic social teaching addresses the doctrinal issues that arise in such a context and explores the social thought leading up to the modern era which is generally accepted as beginning in 1891 with the publication of Pope Leo XIII s *Rerum Novarum* The book also includes a review of how Catholic social teaching has been received in the United States and offers an informed look at the shortcomings and questions that future generations must address This second edition includes revised and updated essays as well as two new commentaries one on Pope Benedict XVI s encyclical *Caritas in Veritate* and one on Pope Francis s encyclical *Laudato Si* An outstanding reference work for anyone interested in studying and understanding the key documents that make

up the central corpus of modern Catholic social teaching *The Precarious Church* Martyn Percy, 2023-05-19 What is the biggest threat facing churches today Not enough young people Too little mission and evangelism Unsustainable buildings Unappealing styles of worship Not enough diversity Whatever the reasons the church today seems to exist in a state of anxiety concerned with its self preservation In this bold and hopeful book Martyn Percy argues that a being a broken church is in fact good news as it is only through the cracks that the overwhelming abundance of God can shine through This collection of essays and reflections considers what it means to be a precarious church The term suggests uncertainty and peril yet it is rooted in the Latin *precatio* meaning prayer It argues that the Church's vocation is not to be successful or even to survive but to be precarious liminal unpredictable and mysterious a place of encounter with the holy The questions that should consume us are not how shall we remove the risks and alleviate our anxieties but rather how shall we live in this age of uncertainty Every age has had its uncertainties and this inspiring volume explores what faithfulness to each other and to God looks like in an age of anxiety *The Pattern of Our Calling* David Hoyle, 2016-12-07 David Hoyle explores the changing theologies of ministry during the Church's history with the aim of challenging the lack of theological reflection in some of today's understanding of ministry **American Catholics** Leslie Woodcock Tentler, 2020-01-01 A sweeping history of American Catholicism from the arrival of the first Spanish missionaries to the present Tentler does justice to James Joyce's quip that Catholicism means here comes everybody This is the story of everybody lay people sisters priests who was part of the church in the United States a story insightfully analyzed and admirably told A definitive synthesis James M O Toole author of *The Faithful* This comprehensive survey of Catholic history in what became the United States spans nearly five hundred years from the arrival of the first Spanish missionaries to the present Distinguished historian Leslie Tentler explores lay religious practice and the impact of clergy on Catholic life and culture as she seeks to answer the question What did it mean to be a good Catholic at particular times and in particular places In its focus on Catholics participation in American politics and Catholic intellectual life this book includes in depth discussions of Catholics race and the Civil War Catholics and public life in the twentieth century and Catholic education and intellectual life Shedding light on topics of recent interest such as the role of Catholic women in parish and community life Catholic reproductive ethics regarding birth control and the Catholic church sex abuse crisis this engaging history provides an up to date account of the history of American Catholicism

Community Leadership in Maryland, 1790-1840 Whitman H. Ridgway, 2018-07-11 American democracy has fascinated generations of historians They have probed its philosophical foundations and the structure of its institutions but their studies reveal little about those who really wielded power in the formative years of the republic Employing a sophisticated research design Whitman Ridgway examines the changing leadership patterns in four diverse communities in Maryland from 1790 to 1840 The results indicate clearly the need to study the American democratic process at the local level Ridgway selected Baltimore City Frederick St Marys and Talbot counties representing the underlying economic and cultural

diversity of one political culture Maryland to evaluate who governed how these patterns differed from one community to another and how such patterns changed over time The research design defines the scope of the study Ridgway uses the decisional method of analysis determining who actually made decisions in order to identify the political leaders His extensive research in manuscript and newspaper collections tax and census data and religious and geneological records gathered information on some 1 300 persons This study of community power illuminates facets of a democratic society which perplexed Alexis de Tocqueville over a century ago Ridgway demonstrates that despite the expansion of popular participation in political affairs the influence of the wealthy continued to be significant He shows also how leaders without benefit of wealth or social ties to the oligarchies were able to enter community decision making In a more modern context this important book adds to the literature in several ways Its greatest contribution is methodological no longer can historians talk about power relationships without studying them directly The work also compares two important periods the first and second party eras normally treated in isolation and through this comparison it reveals much about democracy egalitarianism and power Originally published 1979 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value
