A Generation Later James F. Eder, 1999-08-01 A Generation Later moves beyond analytical models of rural change that focus on the peasant agricultural aspect of rural communities and makes a convincing case for an approach that integrates farm and nonfarm occupations and does justice to the conditions of occupational multiplicity that characterize to an increasing extent many of the rural communities in Asia In this context it challenges conventional and simplistic peasant to proletarian views of change Rather than finding a dreary and dispirited landscape of sameness and hardship it offers some empirical support for amore optimistic view of the region s future one of growing household prosperity and widespread individual opportunity

Fiona McCormack, Kate Barclay, 2013-05-14 The volume addresses how capitalism has been very effective in generating wealth and technological innovation but has also been associated with social inequity and environmental damage Its inherent flaws have been highlighted by the escalation of ecological problems arising from growth oriented capitalism and various economic crises **Philippine Political Science Journal** ,2006 Booty Capitalism Paul D. Hutchcroft, 2019-04-15 In the early postwar years the Philippines seemed poised for long term economic success within the region only Japan had a higher standard of living By the early 1990s however the country was dismissed as a perennial aspirant to the ranks of newly industrializing economies unable to convert its substantial developmental assets into developmental success Major reforms of the mid 1990s bring new hope explains Paul D Hutchcroft but accompanying economic gains remain relatively modest and short lived What has gone wrong The Philippines should have all the ingredients for developmental success tremendous entrepreneurial talents a well educated and anglophone workforce a rich endowment of natural resources a vibrant community of economists and development specialists and abundant overseas assistance Hutchcroft attributes the laggard economic performance to long standing deficiencies in the Philippine political sphere The country s experience he asserts illuminates the relationship between political and economic development in the modern Third World Through careful examination of interactions between the state and the major families of the oligarchy in the banking sector since 1960 Hutchcroft shows the political obstacles to Philippine development Booty capitalism he explains emerged from relations between a patrimonial state and a predatory oligarchy Hutchcroft concludes by examining the capacity of recent reform efforts to encourage transformation toward a political economic order more responsive to the developmental needs of the Philippine nation as a whole **AccessAsia** ,1997 Governments and Markets in East Asia Jungug Choi, 2007-01-24 The Asian economic crisis of 1997 to 1998 had a dramatic impact on the region s economies and its politics This book is a comparative study of five countries experiences making important contributions to key theoretical debates on the relationship between economic performance and practical stability Region, Nation and Homeland Miriam Coronel Ferrer, 2020-01-20 Movements tell stories of oppression and liberation They critique the power relations that exist They offer alternative visions of the homeland they hope to build This volume looks at the Moro and Cordillera movements as told in their own words Within and among these movement organizations in the Philippines their constructed identities and claims for demanding the right to self determination differed and evolved over time The author shows the significant intertextuality in the discourse of the Moro Islamic Liberation Front which broke away from the Moro National Liberation Front She traces the drift to heightened ethnonationalism in the case of the Cordillera Peoples Liberation Army when it split from the national democratic Cordillera People s Democratic Front She reflects on where these mobilizations are now and the strands of discourses that have remained salient in current times **Philippine Studies** ,2008 **The Economy of the Philippines**

Peter Krinks, 2003-09-02 In the late 1950s the Filipino economy could reasonably have been described as more advanced than those of its South Asian neighbours. Ever since then however it has consistently lagged behind and only really started to grow strongly in the mid 1990s and even then it failed to achieve the growth rates of the rest of Southeast Asia ten years earlier. This book critically analyses the Filipino economy and attempts to explain the problems that it has faced as well as the solutions that need to be put into practice. This accessible and comprehensive book will be of great use to students, academics and business professionals with an interest in the economies of Asia. **Pilipinas**, 1998 Historical Dictionary of the Philippines Guillermo Artemio Ramos, May Kyi Win, 1997 Selection of background information was culled for historical value to contemporary political, economic and cultural life of the Filipino people.
