Paul Simon Robert Hilburn, 2019-05-28 Acclaimed music writer Robert Hilburn s epic and definitive Rolling Stone biography of music icon Paul Simon written with Simon s full participation but without his editorial control that reminds us how titanic this musician is The Washington Post For more than fifty years Paul Simon has spoken to us in songs about alienation doubt resilience and empathy in ways that have established him as one of the most beloved artists in American pop music history Songs like The Sound of Silence Bridge Over Troubled Water Still Crazy After All These Years and Graceland have moved beyond the sales charts and into our cultural consciousness But Simon is a deeply private person who has said he will not write an autobiography or talk to biographers Finally however he has opened up for Robert Hilburn for more than one hundred hours of interviews in this brilliant and entertaining portrait of Simon that will likely be the definitive biography Publishers Weekly starred review Over the course of three years Hilburn conducted in depth interviews with scores of Paul Simon s friends family colleagues and others including ex wives Carrie Fisher and Peggy Harper who spoke for the first time

and even penetrated the inner circle of Simon's long reclusive muse Kathy Chitty. The result is a deeply human account of the challenges and sacrifices of a life in music at the highest level. In the process Hilburn documents Simon's search for artistry and his constant struggle to protect that artistry against distractions: fame, marriage, divorce, drugs, record company interference, rejection and insecurity that have derailed so many great pop figures. As engaging as a lively American tune, *People* by Paul Simon is a straight shooting tour de force that does thorough justice to this American prophet and pop star. USA TODAY four out of four stars. Read it if you like Simon, read it if you want to discover how talent unfolds itself. Stephen King

The essays cover six main areas: views of the field, oral tradition revisited, social history, social criticism and interpretation, women in popular culture, little genres of everyday life, the local and the global. *African Music* John Gray, 1991-04-04. *African Music* is devoted to ethnographic, anthropological, musicological and popular studies of sub-Saharan African music from the 1890s to the present. The bibliography is organized into six basic sections. Section one covers works on cultural policy and the performing arts in sub-Saharan Africa while section two provides a selected guide to works on ethnomusicology. Section three the largest deals with general works and regional/country studies of traditional sub-Saharan musics defined most simply as the local village or rural musics of West, Central, Southern and East Africa. General and regional/country studies of African pop music as well as biographical and critical studies of 275 popular musicians and groups are covered in section four. Section five focuses on the acculturated or art music traditions of Africa's Westernized elite citing both general works and biographical/critical studies on African composers and performers. The sixth and final music section covers general studies on African church or liturgical music. The items cited in these six sections range from books, dissertations, unpublished papers and periodical and newspaper articles to films, videotapes and audiotapes in all of the major Western languages as well as several African ones. The three appendixes deal respectively with reference works on African music and culture, archives and research centers and a selected discography listing both traditional and popular music recordings and outlets where they may be found. Four indexes: ethnic group, subject, artist and author complete the work and provide a key to its 5,800 entries. By covering works from 1732 to the present, *African Music* offers not only the most up to date scholarship on the subject but also the most comprehensive coverage currently available. It offers a much needed and long overdue resource for students, scholars and librarians seeking to understand the musics of sub-Saharan
