**Cliff and the Missing Pieces** Gregory M. Hasty, 2023-08-23 Oak Cliff and the Missing Pieces is the first book written about the area's history in over three decades. It not only captures the beginnings of the early settlement, it takes the reader beyond a century and a half of growth and tracks how the community has evolved. The book is unique in that it captures the history of West Dallas in conjunction with its Oak Cliff neighbor and how the two transformed together over time into what we see today. The collection of historical accounts and hundreds of photos identify individuals and places of prominence finally memorialized in one anthology. The narrative also takes readers through facts and stories that have been ignored or concealed, revealing an authentic depiction of how the community was at times abused and neglected. Readers will enjoy this introspective examination of the area south and west of the Trinity and will once and for all put together the missing pieces of the storied land that has long been misunderstood. All proceeds from the sale of Oak Cliff and the Missing Pieces will go to benefit non-profit organizations in Oak Cliff and West Dallas.

**Touring Pacific Cultures** Kalissa Alexeyeff, John Taylor, 2016-12-15 Tourism is vital to the economies of most Pacific nations and as such is an important site for the meaningful production of shared and disputed cultural values and practices. This is especially the case when tourism intersects with other important arenas for cultural production both directly and indirectly. Touring Pacific Cultures captures the central importance of tourism to the visual material and performed cultures of the Pacific region. In this volume we propose to explore new directions in understanding how culture is defined, produced, experienced, and sustained through tourism-related practices across that region. We ask how is cultural value, ownership, performance, and commodification negotiated and experienced in actual lived practice as it moves with people across the Pacific. This collection is a welcome addition to tourism studies or perhaps we should say post or para tourism. The essays bring out many facets and experiences too quickly bundled under a single label and focused exclusively on destinations visited by outsiders. Tourism, we see here, actively involves many different populations, societies, and economies, a range of local, global, regional engagements that can be both destructive and creative. Western outsiders aren't the only ones on the move. Unequal power, neo-colonial exploitation, and capitalist commodification are very much part of the picture. But so are desire, adventure, pleasure, cultural reinvention, and economic development. The effect overall is an attitude of alert critical ambivalence with respect to a proliferating historical phenomenon. A bumpy and rewarding ride. James Clifford, Professor Emeritus, University of California, Santa Cruz.
