Broken Cities Martin Devecka, 2020-09-01 A comparative study of cities that fell into ruin through human involvement We have been taught to think of ruins as historical artifacts relegated to the past by a catastrophic event Instead Martin Devecka argues that we should see them as processes taking place over a long present In Broken Cities Devecka offers a wide ranging comparative study of ruination the process by which monuments architectural sites and urban centers decay into ruin over time Weaving together four case studies of classical Athens late antique Rome medieval Baghdad and sixteenth century Mexico City Devecka shows that ruination is a complex social process largely contingent on changing imperial control rather than the result of immediate or natural events Drawing on literature legal texts epigraphic evidence and the narratives embodied in monuments and painting Broken Cities is an expansive and nuanced study that holds great significance for the field of historiography *Forthcoming Books* Rose Arny, 1999
