Gallardo,2019-10-22 This book will be about various aspects related to applications and use of knowledge of nanotechnology
in promoting defense activities The area in which scientists are focusing includes i nano devices such as sensors GPS
computers chemical biological weapons nano fabrics bulletproof materials nano stealth coating use of nanotechnology in
various areas of aerospace It is intended to cover available methodologies and understanding of technologies for these
applications Not only for destructive but also to improve medical and casualty safety care for soldiers and to produce
lightweight strong and multi functional materials for use in body armour both for protection and to provide enhanced
connectivity will be covered **Secret Weapons and World War II** Walter E. Grunden,2005 Grunden s analysis of this
fundamental flaw in the Japanese war effort seamlessly weaves together science technology and military history to provide
an entirely unique look at a crucial but understudied aspect of World War II Comparing the science and weapons programs of
all the major combatants he demonstrates that Japan s failure was nearly inevitable given its paucity of strategic resources
an inadequate industrial base the absence of effective centralized management to coordinate research military hostility
toward civilian scientists and bitter interservice rivalries In the end Japan could not overcome these obstacles and thus failed
to make the transition to the kind of Big Science it needed to ward off its enemies and dominate the Far East BOOK JACKET
