[Linking Competence to Opportunities to Learn](#) Xiufeng Liu,2009-05-01 For many people a high standard for student learning is desirable This is what underlies current standard based science education reforms around the world As someone who was born and brought up in a less privileged home and educated in a resource limited school environment in a developing country I always had to study hard to meet various standards from elementary to high

school to university My first book in English published over 10 years ago Liu X 1996 Mathematics and Science Curriculum Change in the People's Republic of China Lewiston NY The Edwin Mellen Press provided me an opportunity to examine standards i.e. Chinese national science teaching syllabi from a historical and political point of view I argued that standards are developed for particular political agendas in order to maintain the privileged position of certain groups i.e. urban residents in a society at expenses of others i.e. rural residents Thus underneath standards is systematic discrimination and injustice Since then I have had opportunities to study the issue of standards in much more breadth and depth This book Linking Competence to Opportunities to Learn Models of Competence and data mining provides me an opportunity to examine standards from a different perspective opportunity to learn

Real Love Alexes M. Terry, 2020-06-18 In REAL LOVE Strategies for Reaching Students Who See No Way Out Alexes uses her personal stories and professional experiences to empower and equip educators with strategies that can be implemented immediately to support students with diverse needs Rooted in the theories of Culturally Responsive and Reality pedagogy Alexes challenges educators to reconsider outdated and inequitable educational practices and pushes them to create learning environments experiences and opportunities that will meet the social emotional cultural and academic needs of all students To Alexes REAL LOVE is not a mere acronym Instead it is her call to action for all educators to take a new approach to the way teaching and learning happens in our schools and classrooms She believes that a radical transformation to our pedagogical practices will result in the elimination of educational achievement and opportunity gaps and an increase in the college and career readiness and completion rate of some of our most vulnerable student populations
