Reading Literature After

Deconstruction , Rediscovering Rhetoric Justin T. Gleeson, Ruth C. A. Higgins, 2008 Rhetoric is ubiquitous in modern discourse from arguments delivered in the High Court to advertisements disseminated in the high street For the legal and political advocate persuasion is also a professional technique that must be perfected properly to practise each art In contrast with the classical era and the middle ages in which grammar rhetoric and dialectic were basic features of all education modern curricula almost entirely neglect any theoretical study of the methods of rhetoric Rediscovering Rhetoric re introduces to modern practitioners and students a grasp of the speeches writings and methodologies of the great classical scholars of rhetoric Part 1 Law and Language in the Greco Roman Tradition provides a contextualised introduction to significant theorists of rhetoric in the classical period and consists of four chapters written by practising barristers and a current Justice of the Federal Court of Australia Part 2 The Practice of Persuasion comprises essays by practitioners distinguished in their pursuit of legal persuasion one former and two current Justices of the High Court of Australia illuminating their experiences of argument from the perspective of both bench and bar Part 3 The Politics of Persuasion performs a similar function to Part 2 in the related domain of politics It includes a chapter by Graham Freudenberg former speechwriter for Gough Whitlam and others Together the three parts provide a unique inter disciplinary perspective on the theory and practice of legal and political persuasion Published in association with the NSW Bar Association Secrets of the Oracle W. David Shaw, 2009-12-01 What is wisdom Where does it come from Where can we find it And what does it mean in our lives In Secrets of the Oracle David Shaw explores these questions by turning to the works of wisdom writers whose words retain their meaning and transformative power even centuries after they were written Wisdom literature exists in two shaping forms the aphorism geared towards the past and the oracle a revolutionary impulse looking to the future Secrets of the Oracle discusses both types of wisdom finding them in the works of poets and philosophers from Tennyson and Zeno to Yeats and George Berkeley from Browning and Schleiermacher to T S Eliot and F H Bradley The book also discusses the contribution to wisdom of Jesus and the author of Ecclesiastes of Abraham Lincoln and Norman Maclean Part celebration of wisdom found and part lament for wisdom lost Secrets of the Oracle is convincing in its assertion that wisdom articulates

what is and offers creative visions of the future *Third Voice* Michael P. Knowles,2021-01-14 What makes for powerful preaching Careful exegesis logical structure interesting illustrations and clear speech can all help But truly transformative preaching depends on divine power not human skill alone Those who would reduce preaching to simple systems or sure fire strategies for success will find little of interest here Instead this book appeals to those pastors and academics alike who find themselves confounded by the occasional futility of their best preaching and the unexpected success of their worst It invites readers to enter more deeply into the uncontrollable mystery that attends all efforts to speak in the name of Christ above all on the topic of resurrection Although the gospel always turns our attention to the crucified and risen Lord preaching about resurrection calls us to trust that the same God who raised Jesus from death will likewise grant life to us as preachers to our sermons and to our hearers alike Drawing on resources as diverse as Luther s understanding of the Christian gospel Speech Act theory and Bhabha s concept of Third Space *Third Voice Preaching Resurrection* argues that the true key to effective preaching is not rhetoric but spirituality *Hidden Mutualities* Michael Mitchell,2006-01-01 Hidden mutualities link the work of major postcolonial writers with Christopher Marlowe s drama of the Faustian pact the manipulation of the material world in exchange for the soul written as the scientific world view was emerging which accompanied the imperial expansion of Europe and has determined the economic and social structures of the colonial and postcolonial world This fascinating study brings together researches in widely different fields to show how Doctor Faustus reflects a Gnostic Hermetic tradition marginalized within the dominant European power structures Rediscovered in the Renaissance and combined with occult arts such as alchemy and magic this living tradition informs the work of Magus figures such as Pico della Mirandola Marcilio Ficino Trithemius Johannes Reuchlin Agrippa of Nettesheim Paracelsus and John Dee who are reflected in the Faust tradition and in Prospero in Shakespeare s *The Tempest* The second part investigates the dual legacy of the Magus A counterpoint between a law governed objective material world and an occult visionary pursuit of the divine potential of the human imagination is traced through the examples of Johan Kepler Robert Fludd Isaac Newton William Blake Rudyard Kipling Aleister Crowley W B Yeats Wolfgang Pauli and C G Jung In the third part textual analysis reveals how attention to these Faustian themes opens new and exciting critical perspectives in appreciating the works of postcolonial writers in particular Dimetos by Athol Fugard *Disappearance* by David Dabydeen *Omeros* by Derek Walcott and the novels of Wilson Harris
