Writing-between-Worlds Ottmar Ette, 2016-02-22 This book proposes that there is no better no more complex way to access a community a society an era and its cultures than through literature For millennia literature from a wide variety of geocultural areas has gathered knowledge about life about survival and about living together without either falling into discursive or disciplinary specializations or functioning as a regulatory mechanism

for cultural knowledge Literature is able to offer its readers knowledge through direct participation in the form of step by step intellectual and affective experiences Through this ability it can reach and affect audiences across great spatial and temporal distances Literature what different times and cultures have been able to understand as such in a broad sense has always been characterized by its transareal and transcultural origins and effects It is the product of many logics and it teaches us to think polylogically rather than monologically Literature is an experiment in living and living in a state of experimentation About the author Ottmar Ette has been Chair of Romance Literature at the University of Potsdam Germany since 1995 He is Honorary Member of the Modern Language Association of America MLA elected in 2014 member of the Berlin Brandenburg Academy of Sciences and Humanities elected in 2013 and regular member of the Academia Europaea since 2010 Yellow Light Amy Ling,1999 Yellow Light asks forty world renowned and newly emerging artists such as novelists C Y Lee and Maxine Hong Kingston playwright David Henry Hwang and filmmaker Christine Choy and hip hop and rap artists Jamez Chang and Tou Ger Xiong about their sense of an Asian American identity their intended audience and the genesis and purpose of their creative works Providing interviews photos short biographies personal essays and artistic samples including works of fiction and poetry plays visual art and music for each contributor Yellow Light is the first book to present the words behind the words images and sounds of Asian American cultural production **Metallurgical &**
