Smith-Hinds, 2001-03-07 Making Magic Randall Styers, 2004 Randall Styers seeks to account for the vitality of scholarly discourse purporting to define and explain magic despite its failure to do just that He argues that it can best be explained in light of the European and Euro American drive to establish and secure their own identity as normative The Bloomsbury Reader in the Study of Myth Jonathan Miles-Watson, Vivian Asimos, 2019-08-22 What is myth Why do myths exist What do myths do Where are myths going This reader is organized into 4 parts which explore these questions Drawing on over 10 years of experience teaching myth in religious studies and anthropology departments in the UK USA and Continental Europe the editors have brought together key works in the theory of myth Key features include a general introduction to the reader that outlines a comparative and interpretative framework an introduction contextualizing each part and sub section an introduction to each reading by the editors a companion website that provides discussion questions and further reading suggestions including primary sources From functionalism to feminism nationalism to globalization and psychoanalysis to spatial analysis this reader covers the classic and contemporary theories and approaches needed to understand what myth is why myths exist what they do and what the future holds for them The Oxford Handbook of Evolutionary Psychology and Parenting Viviana A. Weekes-Shackelford, Todd K. Shackelford, 2021 The Oxford Handbook of Evolutionary Psychology and Parenting provides a comprehensive resource for work on how our evolutionary past informs current parenting roles and practices It features chapters from leaders in the field covering state of the art research The Handbook is designed for advanced undergraduates graduates and professionals in psychology anthropology biology sociology and demography as well as many other social and life science disciplines It is the first resource of its kind that brings together empirical and theoretical contributions from scholarship at the intersection of evolutionary psychology and parenting Each of the authors has a Ph D in evolutionary psychology and much of their research focuses on violence and conflict in families and romantic relationships Copyright Entries. Third Series Library of Congress. Copyright Office, 1974 Ancestor Worship and the Elite in Late Iron Age Scandinavia Triin Laidoner, 2020-01-14 Ancestor worship is often assumed by contemporary European audiences to be an outdated and primitive tradition with little relevance to our societies past and present This book questions that assumption and seeks to determine whether ancestor ideology was an integral part of religion in Viking Age and early medieval Scandinavia The concept is examined from a broad socio anthropological perspective which is used to structure a set of case studies which analyse the cults of specific individuals in Old Norse literature The situation of gods in Old Norse religion has been almost exclusively addressed in isolation from these socio anthropological perspectives The public

gravemound cults of deceased rulers are discussed conventionally as cases of sacral kingship and more recently religious ruler ideology both are seen as having divine associations in Old Norse scholarship Building on the anthropological framework this study introduces the concept of superior ancestors employed in social anthropology to denote a form of political ancestor worship used to regulate social structure deliberately It suggests that Old Norse ruler ideology was based on conventional and widely recognised religious practices revolving around kinship and ancestors and that the gods were perceived as human ancestors belonging to elite families Religious Responses to HIV and AIDS Miguel Munoz-Laboy, Jonathan Garcia, Joyce Moon-Howard, Patrick Wilson, Richard Parker, 2016-01-08 Religious institutions shaped the ways individuals communities and societies responded to HIV and AIDS since the 1980s This book draws on research studies ranging in context from sites in sub Saharan Africa to New York City in the USA to examine the complexity of responding to the epidemic both globally and locally Religious systems of meaning practices and institutions have been central to the articulation of projects for social change and inversely sometime strongly resistant to change in diverse institutional responses to HIV and AIDS Sometimes religious movements provided powerful forces for community mobilisation in response to the social vulnerability economic exclusion and health problems associated with HIV In other contexts religious cultures have reproduced values and practices that have seriously impeded more effective approaches to mitigate the epidemic By highlighting these complex and sometimes contradictory social processes this book provides new insights about the potential for religious institutions to address the HIV epidemic more effectively More broadly it shows how research can be done on religion in the area of global public health showing how civil society organizations shape opportunities for health promotion a crucial and new area of global public health research This book was originally published as a special issue of Global Public Health Birth as an American Rite of Passage Robbie E. Davis-Floyd, 2004-03-15 Why do so many American women allow themselves to become enmeshed in the standardized routines of technocratic childbirth routines that can be insensitive unnecessary and even unhealthy Anthropologist Robbie Davis Floyd first addressed these questions in the 1992 edition Her new preface to this 2003 edition of a book that has been read applauded and loved by women all over the world makes it clear that the issues surrounding childbirth remain as controversial as ever Bellona **Island Beliefs and Rituals** Torben Monberg, 1991-05-01 Monberg's account of the Bellonese religion is descriptive ethnography at its best It is rich in detail and the organization of the material gives a coherent view of Bellonese culture and society While not a comparative study in itself it provides an abundance of data that will be invaluable for other works that are more comparative in nature from the Editor's Note Pacific Islands Monograph Series No 9 Center for Pacific Islands Studies UH
